OVER THE YEARS

Commentaries based upon cataloging 301 sales, 45 years as collectors and 40 years as professional numismatists.

The present market can perhaps best be described as "Explosive." Record prices set at auction for rarities and top-grade specimens seem to last only long enough until another specimen is offered, when a new record is set. The true criterion of the market can best be evaluated by knowing the amount of bidders on each item and how much they are willing to bid for it. During the past year the amount of bidders for rarities and top-grade specimens have increased substantially together with the specific price they are willing to bid. In addition, the number of lots being awarded to dealers has increased. Thus the informed collector and dealer, recognizing the strong demand and dwindling supply, has constantly increased his bids to the amount necessary to obtain the coin or note.

Since several months must elapse between the cataloging of a sale and the time it actually takes place, it is inevitable in this rapidly rising market that a number will realize more than our estimates. We do not like this situation, but it exists. Informed collectors and dealers, realizing this, have increasingly taken advantage of the provision to increase their bids (see bottom of bid sheet), if necessary, to obtain the lots particularly wanted. The increase may be limited to specific lots or apply to all the bids, whichever the bidder may instruct us.

The main difference between the bidder of a decade ago and the present bidder is that he is better informd.

Recollections of our earlier sales occur rather frequently when we read, "Do You Remember When" page in the Numismatic Scrapbook wherein under "Thirty Years Ago" they refer to various items in our sales and what they then brought.

We feel this sale truly deserves its title, "KAGIN'S SALE OF THE 70's". It contains many Rare and Exceptional coins and currency. No doubt it will serve as a reference for many years to come. The word "UNIQUE" appears a number of times. We hape many collectors avail themselves of the opportunity to acquire at least one of these. Who knows how many years will pass before an occasion like this again occurs.

FIRST SESSION

1:00 P.M. --- Lots 1-528

Consignment A — Texas

COMPLETE COMMEMORATIVE SET

1. COMPLETE 144 PIECE SET COMMEMORATIVE HALVES, 25¢, $1 mounted in 5 attractive plastic holders. BRILLIANT UNCIRCULATED except for Lincoln, Huguenot, Long Island and 1935 Arkansas which have slight friction. Most specimens are somewhat superior to those generally offered and many would qualify as "GEMS". Increasingly difficult to assemble in this superior state of preservation. We note sets have changed hands earlier this year at over $15,000.00 but more recently, prices have fluctuated.

COMPLETE SET TEXAS COMMEMORATIVE HALVES

2. COMPLETE 13 PIECE TEXAS SET, 1934-1938, mounted in plastic holder shape of Texas, BRILLIANT UNCIRCULATED, somewhat superior to most seen.

1937-1942 PROOF SETS

3. PROOF SETS 1937, 1939, 1940, 1941, 1942 (both 5¢) in 5 plastic holders, brilliant to natural toning with only a few having spots, uncleaned.

4. PROOF SETS 1940, 1942 (both 5¢) in plastic holders, brilliant to natural toning; the 1940 50¢ has small carbon spot reverse edge.

1856-1909 EAGLE & INDIAN CENTS, MAINLY PROOFS

5. **1856 FLYING EAGLE, only slight friction on obverse (about uncirculated) with the reverse qualifying as a full extremely fine, lovely golden bluish toning. Popular. Surely this desirable specimen should exceed its modest catalog value in E.F. of** **1,400.00**

7. 1858 Large Letters, glittering golden olive uncirculated, sharp struck with wire edge; only a small reverse carbon spot to detract. Scarcer than above.
8. **1858 INDIAN, TYPE OF REGULAR 1859**, Judd 208, glittering golden bluish uncirculated with prooflike surface, tiny carbon spot and one leaf not fully struck up. Scott Catalogue includes it among the regular issues with the statement "a quantity of non-proofs were placed in circulation, probably the same year". Many times rarer than regular 1859. Actually rarer than 1856.
9. **1859 INDIAN, Laurel Wreath, without shield,** glittering golden bluish uncirculated, choice. Popular. Setting new records.
10. **1859 TYPE 1860 WITH SHIELD & OAK WREATH,** Judd 228, glittering golden uncirculated with prooflike surface; only a tiny nick above the head detracts. Scott includes it among the regular issues with the statement "a quantity of non-proofs were placed in circulation, probably the following year." Much rarer than 1856 but not yet in as strong demand. The 3 years-old Scott values it $200; present value?

LIBERTY HEAD SILVER DOLLARS

One of the most popular series with many advancing substantially this year. In fact, a number now bring somewhat more than the suggested prices in the Guidebook. "Bag-marks" are minor abrasions acquired from being stored and shipped in bags. All uncirculated specimens have them. An excessive amount will be so noted, as will those with less than the usual quota (CHOICE). Truly exceptional specimens will be so noted.

SHIELD NICKEL PROOF SET 1865-1883

Includes 1865-66 Transitionals

786. **1865 THROUGH 1883 SET 22 PROOFS, BRILLIANT TO GOLDEN, CHOICE! INCLUDES 1867 RAYS PROOF PLUS 1865 RAYS (type 1866, Transitional J-416, Rarity 7—only 9 or 10 known, cat. $1,000 3 years ago), 1865 NO RAYS (type 1867, Transitional J-418, Rarity 7 — only 6 or 7 known, cat. $1,000 3 years ago), 1866 NO RAYS (type 1867, Transitional J-507, cat. $1,250 3 years ago).** A "Fantastic" Set easily worth into the Five Figures" Certainly exceedingly difficult to duplicate. Regardless of the price paid by the new owner, we cannot help but feel it has great potential for increased value in the not too distant future.

"NORMAL" SHIELD NICKEL PROOF SET 1866-1883

787. **1866 THROUGH 1883 SET 19, BRILLIANT TO GOLDEN PROOFS** except 1867 Rays which is Brilliant Uncirculated, Sharp Struck GEM! A lovely set **SUPERIOR TO MOST SEEN OVER THE YEARS.**

LIBERTY HEAD NICKEL PROOF SET 1882-1912

Includes 1882 Transitional

788. **1882 THROUGH 1912-P-D-S SET 34, BRILLIANT TO GOLDEN & IRIDESCENT PROOFS** except 1893 Brilliant Unc. Gem; 1912-D Golden Unc. Gem; 1912-S deeply toned average strike unc.; a few minute carbon flecks. **The 1882 Type 1883 no Cents Transitional (Judd 1690, cat. $2,500 3 years ago) is toned. Superior to most sets seen over the years.** Judging from new records being set in recent months, present "catalog values" are behind the current market.

HALF DIMES PROOF SET 1856-1873

789. **1856 THROUGH 1873 COMPLETE DATE SET** (no transitional '59) **BRILLIANT TO GOLDEN & IRIDESCENT PROOFS. Superior to most sets seen over the years.** Another series now quite popular with new records being set nearly every time offered.

LIBERTY SEATED DIMES PROOF SET 1857-1891

790. **1857 THROUGH 1891 COMPLETE DATE SET 36** (no transitional '59) both 1873, **BRILLIANT TO GOLDEN, BLUISH, IRIDESCENT PROOFS** except 1858 is sharp struck unc. **Superior to most sets seen over the years.** Popular with many new records being set when individual specimens come up for auction.

BARBER DIMES PROOF SET 1892-1915

791. **1892 THROUGH 1915 COMPLETE SET 24, BRILLIANT TO GOLDEN, BLUISH, IRIDESCENT PROOFS. Superior to most sets seen over the years.** Another series currently enjoying great popularity which is being reflected in new records at auction.

LIBERTY SEATED QUARTERS PROOF SET 1856-1891

792. **1856 THROUGH 1891 COMPLETE SET 37, both 1873, BRILLIANT TO GOLDEN BLUISH, IRIDESCENT PROOFS. Superior to most sets seen over the years.** Rather difficult to assemble such a set today as many would qualify as "GEMS". Judging from new records set this year, this desirable set should attract spirited bidding.

BARBER QUARTERS PROOF SET 1892-1915

793. **1892 THROUGHT 1915 COMPLETE SET 24, BRILLIANT TO GOLDEN, BLUISH, IRIDESCENT PROOFS. Superior to most sets seen over the years.** The new records constantly being set when single pieces come up for auction confirm the popularity of this series. The price paid for this set will probably be a "bargain" in the near future, judging from the current strong demand.

794. 1863 TYPE 1866 With Motto "IN GOD WE TRUST", SET 25¢, 50¢, $1; SIMILAR SET 3 DATED 1864; SIMILAR SET 3 DATED 1865. BRILLIANT TO GOLDEN BLUISH PROOFS. The 1865 50¢ appears to have been cleaned some years ago but now has a golden toning. The others are lovely specimens well deserving of the highest accolades of "SUPERB" & "PRISTINE"! Struck in silver, Judd numbers 335, 342, 345; 386, 391, 396; 425, 429, 434.

We are puzzled why the Guidebook lists the other Transitionals such as 1856 eagle 1¢, (Scott also includes 1858 Indian type 1859 & 1859 type 1860), 1859 & 1860 5¢, 1859 10¢, 1866 no motto 25¢, 1866 no motto 50¢, 1866 no motto $1 but omits these important pieces.

The 1866 no motto 25¢(50¢, $1 set, if auctioned today, would probably exceed $100,000.00. Judd lists individual specimens of the 1863-64-65 as Rarity 7 (4 to 12 known) but Scott lists them as "High Rarity 7" (4 to 6 known) with at least one as "RARITY 8, ONLY 3 KNOWN"! It is difficult to know what this remarkable and highly desirable set is "worth" on today's market. Surely this great rarity is deserving of that much abused statement "CHANCE OF A LIFETIME".

795. **Similar set of 9 Transitionals dated 1863-64-65 STRUCK IN COPPER, BRILLIANT TO TONED IRIDESCENT PROOFS.** A lovely set although close inspection with glass reveals a few minute carbon flecks. Judd numbers 336, 343, 346; 387, 392, 397; 426, 430, 435. Judd lists them as Rarity 6 & Rarity 7. **Scott has them Rarity 7 to High Rarity 7 (only 4 to 6 known). EXCESSIVELY RARE SET.**

1871 "INDIAN PRINCESS" SILVER DOLLAR

806. **$1 J-1140, 1871 Lovely Indian Princess design, "STANDARD 1 DOLLAR", silver.** Purchased in 1972 sale described **"BRILLIANT BLUE AND PINK PROOF. AS PERFECT AS THE DAY IT WAS STRUCK! Unpriced in First, Second, Third and Fourth Editions of Dr. Judd book on patterns.** There noted as R-7 but since Dr. Judd evidently could not find any record extending back many years on which to base a price, we are inclined to believe it is actually **R-8 (2 OR 3 STRUCK!).** ONE OF THE MOST POPULAR DESIGNS OF ALL THE PATTERNS OF THE GREATEST RARITY". It brought $2,500 then, over a year ago. The spectacular advance in silver dollar prices since then leads us to expect this rarity to bring somewhat more now.

PLATE

SET 1883 EXPERIMENTAL NICKELS

807. **5¢ J-1704, 1708, 1710, 1712 SET 4 STRUCK IN NICKEL,** in plastic lettered **"EXPERIMENTAL PIECES STRUCK AT THE U.S. MINT TO SHOW DIFFERENT MIXTURES OF NICKEL & COPPER. RARITY 7. ONLY 4 TO 12 O FEACH PIECE STRUCK."** The 4 different reverses have **"PURE NICKEL", "75N. 25C.", "50N. 50C.", "33N. 67C.". BRILLIANT GEM PROOFS!** Acquired a year ago at $1,600.00. The strong demand for rare and choice coins since then leads us to expect this interesting set to now bring more.

1795 "CONDITION-CENSUS"? HALF CENT

979. 1795 Plain Edge, no Pole, only barest traces of friction, faint hairline at left, struck slightly off-center with broad full dentilation at right 2/3rds narrowing to practically no dentilation at left, minute nick on edge evident only when held on edge, even bluish brown color. A candidate for "Condition-Census". RARE SO CHOICE!

980. **1796 WITH POLE TO CAP,** acquired from a 1963 sale described **"1796 G-1, POLE TO CAP, MAGNIFICENT SHARPLY STRUCK PROOF SURFACE GEM! RED BLENDED TO GOLDEN BROWN COLOR. MORE SHARPLY STRUCK AND BETTER CENTERED THAN THE BROBSTON SPECIMEN AT $9,750.00. THIS IS THE FABULOUS NEWCOMBER SPECIMEN. WHAT A PEDIGREE AND WHAT CONDITION. (15,000.00)"**

ONE OF THE OUTSTANDING CLASSICS OF THE ENTIRE U.S. COINAGE

Each series seems to have an outstanding coin. In the half cents, it is 1796; in nickels, it is 1913; in dimes, it is 1894-S; in twenty-cents, it is 1876-CC; in quarters, it is 1827; in halves, it is 1838-O; in dollars, it is 1804; The nickel and dollar would today bring well over $100,000 each; the dime, twenty-cents, quarter and half dollar today would bring about $50,000 each — some probably more and some perhaps a little less. It will be interesting to see where this **"MOST WANTED DATE HALF CENT"** fits into the above ratio of values. Interested bidders should keep in mind that **IT HAS BEEN A DECADE SINCE THIS FANTASTIC SPECIMEN HAS COME UPON THE MARKET.**

PLATE

1797 LETTERED EDGE HALF CENT

981. 1797 **LETTERED EDGE,** struck on a planchet cut-down from a 1796 Cent with "6" quite sharp at edge before Liberty's face and milling marks of cent in arc from edge extending across center; milling and part of inscription also evident on reverse. Obverse Fine with some portions closer to Very Fine; reverse Fine To Very Fine except legend at right weak in portions. **Rather comparable to the Brobston specimen which was struck on a planchet cutdown from a 1798 cent.** However, **MORE OF THE LETTERING SHOWS on this specimen.** Without die break at chin described in the Brobston coin. **VERY RARE.** The Brobston coin (sold by Stack's Jan. 1963) was $1,250; it will be interesting to see what this rarity now brings, a decade later.

1802 "CONDITION-CENSUS" HALF CENT

982. 1802 Over 1800, new rev., **Rare Early Die State with HALF CENT quite Sharp!** About Extremely Fine with roughness of surface which seems typical of those we have handled in our Forty Years as Professional Numismatists. Comparable in sharpness to the Brobston coin and therefore "CONDITION-CENSUS". From a 1968 sale at $880; surely this choice specimen, five years later, will now bring "Well Into Four Figures".

1808 OVER 7 "CONDITION-CENSUS" HALF CENT

983. 1808 OVER 7, Very close to Uncirculated with only slight friction, faint line resembling a die break, minute porous spot in planchet, some porosity also on reverse. **FAR SUPERIOR TO THE VERY FINE BROBSTON COIN!** Therefore, **"CONDITION-CENSUS"! Cost $775 in 1972 sale;** now easily worth in "Four Figures".

PLATE

1837 "CONDITION-CENSUS"? HALF CENT TOKEN

984. 1837 Half Cent token, from a 1958 sale described **"PROOFLIKE GEM blue and brown. The choicest specimen we have seen. The Guidebook has finally recognized the true rarity of this in the top grades by not pricing it above very fine."** It brought $385 then; 5 years ago. We would not be surprised to see it now realize closer to "Four Figures".

PLATE

1847 FIRST RESTRIKE HALF CENT PROOF EXCESSIVELY RARE

985. 1847 From a 1968 sale described **"1847 FIRST RESTRIKE, REVERSE OF 1856, obverse BRIGHT RED, reverse BRIGHT RED AND BLUE. CHOICE PROOF! EXCESSIVELY RARE. NOT IN THE CELEBRATED BROBSTON COLLECTION (the most complete half cent collection ever assembled). The Brobston collection did contain the 1845 first restrike (2 known) which sold at $1,450.00 (Stack's Jan. 1963)." It brought $2,150.00 then, 5 years ago.**

In trying to arrive at a current ratio of values, we note th e1836 Original proof half cent of Brobston sold for $600 (Stack's Jan. 1963); the Bowers & Ruddy Rare Coin Review No. 18 (Aug. 1973) has a specimen described as "one of just two specimens we have had during the past ten years. Fewer than two dozen specimens are known to exist. First telephone call gets it for $1,975.00." Surely then, this EXCESSIVELY RARE 1847 should bring "Over Mid Four Figures to Five Figures". Among the RAREST OF ALL U.S. COINAGE!

1856 PATTERN COPPER-NICKEL PROOF HALF CENT

986. **1856 GLITTERING GOLDEN BLUISH PROOF!** Struck in **COPPER-NICKEL** from regular dies to test quality and appearance of metal before striking 1856 Flying Eagle Cents.

An **EXPERIMENTAL PIECE** listed in Judd's pattern book (J-177). **THE CHOICEST SPECIMEN TO PASS THROUGH OUR HANDS IN FORTY YEARS AS PROFESSIONAL NUMISMATISTS!** Only a minute carbon fleck and a slight weakness in the striking of a leaf can be found to detract from its beauty — if one were "supercritical". All other specimens we have seen or handled over the years have had several leaves, as well as other features weak struck in varying degrees (caused by difficulty in striking of hardness of nickel content coins). In strong demand as **1. "ONLY OBTAINABLE HALF CENT PATTERN"**; 2. By **HALF CENT COLLECTORS.** 3. By **PROOF COLLECTORS.** 4. By **HISTORICAL & EXPERIMENTAL COLLECTORS.**

Bowers & Ruddy Galleries had a specimen in their Rare Coin Review No. 15 of Aug. 1972 described as the Brobston coin **"practically unobtainable — and anyone building a type set of patterns usually has to wait many years before finding an opportunity to acquire a pattern of this denomination. Perhaps the rarity of this piece can be best pointed out by saying that this is the first we've offered since the Lohr Collection in 1961! The cost of this piece? We paid nearly triple the current Judd valuation, in case you're interested. Our selling price? Not cheap, but well worth it in our opinion. The specialist will agree, we are sure $1,250.00."**

The photo of the Brobston coin reveals the typical weakness in striking (leaves, etc.) **We believe the specimen herein offered is a SUPERIOR STRIKE!** The marked rise in values for rarities during the past year leads us to believe this highly desirable piece will bring well over $3,000; perhaps closer to 4,000.00

1793 UNLISTED PLAIN EDGE CENT

987. 1793 From a 1971 sale described **"1793 S-6, Wreath but UNLISTED PLAIN EDGE! Lot 1400 of the 1961 A.N.A. auction as "Extremely Fine and most certainly guaranteed genuine. BELIEVED TO BE UNIQUE! EXTREMELY RARE ($2,500.00)." An attractive specimen with smooth surface and even brown color. The record shows that it sold at $2,000.00 at that 1961 sale."** This unique cent brought $6,600.00 2½ years ago at the 1971 sale. The rapid rise in values since then for the rarities should now send this **UNIQUE** specimen to substantially above $10,000; perhaps closer to 15,000.00

1797 PROOFLIKE GEM CENT

988. 1797 Acquired almost 3 years ago from a sale described **"1797 S-123, DRAPED BUST, PROOFLIKE GEM, ORIGINAL "MINT RED" AND TAN COLOR. Originally bought as a "PROOF". It is sharper than the normal struck large cents. This variety is identified by the small die break under the eye."** It brought $2,550.00.

THIS NEEDLE-SHARP BEAUTY MUST BE SEEN TO BE BELIEVED! No wonder it was sold some years ago as a Proof.**WE CANNOT CONCEIVE OF A CHOICER SPECIMEN FOR A "TYPE", DATE, OR VARIETY!** A "fantastic" specimen easily now worth over $5,000; perhaps closer to 7,500.00

1811 "MINT STATE" UNCIRCULATED CENT

989. 1811 S-287, Perfect Date, **UNCIRCULATED WITH EVERY HAIR STRAND SHARP; ALL RIGHT STARS ARE FULL, SHARP STRUCK;** the left stars are not fully struck up (typical of this die). Lovely lustrous light brown shading to tan with splashes of **OIGINAL MINT RED** still visible. We cannot find a record of cataloging an equal specimen in all our 300 sales extending back to the 1930's!

1824 OVER 22, UNCIRCULATED CENT

990. **1824 OVER 22, UNCIRCULATED LUSTROUS CHOCOLATE WITH LIGHTER BROWN SHOWING THROUGH.** The rarity of this date in uncirculated has been known to Large Cent specialists and finally became known to date collectors when the Masters specimen was auctioned by Rarcoa in May, 1971. It realized $3,400.00. It will be interesting to see what a rarity like this will now bring in the present strong market.

1839 OVER 36, CHOICE CENT

991. 1839 OVER 36, Rare STATE II with Die Break Nose To Edge. **Nice Sharp Very Fine.** VERY RARE, PARTICULARLY SO CHOICE! From a 1971 sale at $380; now easily worth over 500.00

"CONDITION CENSUS" 1840-41-42-43-44 CENTS

"Red" means **ORIGINAL MINT RED** and is not to be confused with "processed" red. Guidebook values for "unc." are meaningless for these exceptional specimens.

992. 1840 N-2, Small date, Prooflike with needle-sharp strike, immaculate surfaces, lovely reddish brown color with only two small carbon spots on reverse to detract from its perfection.
993. **1840 N-5, Large Date, UNCIRCULATED MINT RED & CHOCOLATE, "FINEST KNOWN" of the latest die state seen!**
994. 1840 N-6, Large Date, UNCIRCULATED Lustrous chocolate with traces of original mint red, all stars Fully Struck Up, peculiar markings on rim over stars 4-5 & 7-8-9 somewhat similar to 1793 vine & bars device.
995. 1840 N-8, Large Date, lovely blended UNCIRCULATED MINT RED SHADING TO STEEL-BLUE. Sharp Strike with Full Stars!
996. 1841 N-2, Early obverse die state, UNCIRCULATED REDDISH BROWN, Sharp Struck.
997. 1841 N-2, Later die state, UNCIRCULATED MINT RED SHADING TO BROWN.
998. **1841 N-3, LUSTROUS UNCIRCULATED, chocolate obverse, lovely blended Mint Red and brown reverse; Ex Sheldon, Hines as "FINEST KNOWN"!**
999. **1841 N-7, UNCIRCULATED reddish brown; acquired as "FINEST KNOWN, rare variety.**
1000. **1842 N-2, Small date, UNCIRCULATED lustrous brown with traces of red, Sharp Struck, acquired as "THIRD FINEST KNOWN, MS-65".**
1001. 1842 N-6, Large Date, UNCIRCULATED SUBDUED RED, SHARP STRUCK!
1002. 1842 N-8, Large Date, UNCIRCULATED SUBDUED RED, SHARP STRUCK!
1003. **1842 N-9, Large Date, UNCIRCULATED, LOVELY BLENDED RED & BROWN, SHARP STRUCK, rare variety!**
1004. 1843 N-2, Type 1842, UNCIRCULATED RED with some brown toning, overlapping rim break over UN, Sharp Struck.
1005. 1843 N-3, Type 1842, UNCIRCULATED chocolate, Sharp Struck.

1006. 1843 N-4, OBVERSE 1842, REVERSE 1844, FULL MINT RED UNCIRCULATED! THE ONLY ONE SEEN THUS AND "FINEST KNOWN"! A "Fantastic" specimen which we believe will bring well into the four figures.

1007. 1843 N-6, Type 1844, very early Die State, UNCIRCULATED LUSTROUS RED & CHOCOLATE, Sharp Struck!
1008. 1843 N-8, Type 1842, UNCIRCULATED LUSTROUS RED & CHOCOLATE, Sharp Struck!
1009. **1843 N-10, Type 1842, UNCIRCULATED LUSTROUS RED & BROWN, Sharp Struck. Very Rare variety acquired as "FINEST KNOWN"! Ex Merkin 10/72 Sale.**
1010. 1843 N-11, Type 1842, UNCIRCULATED RED WITH SLIGHT BROWN TONING, Sharp Struck!
1011. 1844 N-3, UNCIRCULATED, LOVELY BLENDED RED & BROWN, raised edge both sides.

1848 SMALL DATE CENT — ONLY 5 KNOWN

1012. **1848 SMALL (tiny) DATE,** from a sale almost a year ago described **"good to very good (rough surface). ONLY FOUR KNOWN TO NEWCOMB! An additional specimen turned up in the 1952 A.N.A. sale. All the known specimens are poor to very good."** This is a definite "type", somewhat different than the others of this date. Cost $555 at the above sale.

1855 "12'STARS" MINT RED UNC. CENT

1013. 1855 "12 STARS" listed in Scott as a separate **MAJOR VARIETY "Filled obv. die state (R7) of N. 10." MINT RED UNCIRCULATED BLENDING INTO A LOVELY BLUISH TAN, SHARP STRUCK WITH RAISED EDGE BOTH SIDES!** Valued in Scott at well over 4 times the price of a "common" date cent. Since "common" dates, in this state of preservation now bring over $300 (August), then this rarity should bring well over $1,200.00. If "common" dates bring $350 by the time of this sale, then this beauty should bring well over 1,400.00

In the Coin World just received (as we go to press), we note Gem "common" dates advertised at $350; who knows how much this rare Major Variety will bring by the time of the sale — new records and prices seem to be changing from week to week.

PLATE

EXTREMELY RARE 1855 PROOF 3¢ SILVER

1014. **1855 BRILLIANT PROOF WITH SOME LIGHT GOLDEN TONING ON REVERSE, SHARP STRUCK WIRE EDGE GEM!** Comparison with the description and photo of the Miles coin (April 1969 Stack's auction) leads us to believe it is that specimen. It sold there, 4½ years ago, at $1,400.00.

The strong demand for early proofs, particularly in "GEM" condition, have resulted in many new records constantly being set (when the rarities come upon the market). It is especially sought after as the **"FIRST YEAR COLLECTIBLE PROOF LISTED IN THE GUIDEBOOK". Its great rarity is too well known to elaborate.**

The tremendous increase in demand for "type" coins during the intervening 4½ years since the Miles sale has raised the Guidebook value for the **"commonest Type II silver 3¢ close to 500% for unc.** We note the wholesale price (Coin Dealer Newsletter) is $425 for Type II 3¢ unc. (the price a dealer would have to pay another dealer — if it were available). In addition, it states "SUPERB SPECIMENS BRING PROPORTIONATELY MORE THAN THE PRICES LISTED BELOW". While it lists the 3¢ Silver Type III in Proof, IT DOES NOT LIST THE 3¢ TYPE II PROOF (too seldom available). About 80 Proof 1858 3¢ are said to have been struck — the "commonest" Proof Type II (the 1856-57 proofs are Very Rare). A gem proof 1858 3¢ would certainly be worth over $1,000 today.

Consider all the factors in arriving at what this Great Rarity is "worth".

1. **"GEM" PROOF of the first "Collectible Date Proof".**
2. **Extremely Rare. Not in the recent "Name Sales".**
3. **In demand by 3¢ collectors and Proof collectors.**
4. **In especially strong demand as "TYPE II PROOF 3¢".**
5. **A star item in demand by "Investment" buyers for the above 4 reasons.**

We confidently expect this outstanding rarity to bring well into the "Mid Four Figures". **Regardless of the price paid, the continuing strong demand should make that price a "bargain" in the near future.** Yes, here is a rarity for which we unhesitatingly predict a "Brilliant" future.

As we go to press, we note an ad on page 10 of Coin World (just received) by a leading Eastern dealer offering a Gem Unc. 1858 3¢ at $750; need we say more about the "Brilliant" future of this remarkable 1855 Proof?

PLATE

1794 V-1, UNCIRCULATED HALF DIME
"FINEST" OF SIX KNOWN SPECIMENS

1015. 1794 V-1, WIDE DATE; double leaf top right branch. Breen in his "U.S. HALF DIMES" (Coin Collectors Journal 1958) states **"This variety is Very Rare. It is reported to exist in Mint State (could this be that specimen?) but I have not seen it. Newlin knew only six. Probably R-7, Sheldon scale."**

GLITTERING GOLDEN BLUE UNCIRCULATED! As stated above, this probably is THE FINEST OF THE ONLY SIX KNOWN!

The remarkable Hawn half dime collection sold by Stack's Aug., 1973 (one of the choicest collections assembled) did not contain a 1794 (we tried to locate a choice uncirculated specimen for him the past year or so but were unsuccessful). The Gilhousen col. (Superior 10/1/73) contains the less rare V-2 & V-4 1794 varieties (V.F. & A.U.) but not this Excessively Rare V-1. We have searched other recent Name Sales but cannot locate an uncirculated specimen offered recently enough to have bearing on the current market value.

We did have an uncirculated specimen ("commoner" variety) two years ago in our Nov. 1971 sale which realized $2,450.00. We believe that coin, if offered here now, would bring closer to double (about $5,000.00). Surely this EXCESSIVELY RARE variety worth twice as much as the "common" variety.

1795 V-3, BREEN 4-B HALF DIME
"ABOUT FOUR" KNOWN

1016. 1795 Attributed by Breen as **"VALENTINE 3, BREEN 4-B, HIGH R-7 ABT. 4 KNOWN". SHARP STRUCK WITH EVEN SOME OF THE FEATHERS OF EAGLE'S BREAST VISIBLE! The edge denticles of Both Sides are SHARP & DISTINCT!** The right stars are all full and come to a point, except for the four encompassed by the die break (even these are 80% full!) The left stars are about 90% full (just miss having the sharp center point). The other features of Liberty and eagle are rather sharp and full. We are not certain whether the hair not being quite full is due to striking or faint "cabinet friction". Therefore we are not sure whether we should describe it as "Virtually Uncirculated, only barest rubbing" or "Uncirculated".

Whether it is a condition "55" or "60" coin, it is **ONE OF THE SHARPEST STRUCK 1795 HALF DIMES WE HAVE SEEN, REGARDLESS OF VARIETLY!** Those who have searched for years for a sharply struck 1795 will understand the difficulty of finding such a specimen, without any consideration being given to variety. Even Hawn, in spite of his years of searching, had an "unevenly struck which accounts for lack of detail here and there. Some light nicks on the edge."

Surely this must be **"THE FINEST OF THE 4 KNOWN".** As a date, regardless of variety, its sharpness of strike and attractive appearance would send it to the neighborhood or about $1,500; but as an **EXCESSIVELY RARE variety with ONLY 4 KNOWN,** it is worth double or about $3,000.00. If, as we strongly surmise, IT IS THE "FINEST KNOWN", then Dr. Sheldon's formula would give it a value of 5,000.00

1795 UNIQUE NEW VARIETY HALF DIME UNCIRCULATED

1017. 1795 Obverse V-7, Reverse V-2 "Authenticated with Walter Breen who states that it is the only example of this variety that he has encountered". "Discovery piece of new die combination unlisted in Valentine". UNCIRCULATED SHARP STRUCK WITH STARS 90% TO 100% FULL! Some interesting clashed die marks visible when closely examined. A strand of hair back of ear not fully struck up (ear sharp and full); the breast feathers of eagle visible. A few faint "mint equalization marks" visible on reverse when closely examined (done at mint to bring coin down to proper weight and save cost of melting and recoining). GLITTERING GOLDEN SHARP STRUCK UNCIRCULATED! A remarkable specimen of a UNIQUE VARIETY.

1796 "LIKERTY" HALF DIME PROOFLIKE — FINEST KNOWN?

1018. **1796 LIKERTY, GLITTERING GOLDEN BLUISH PROOFLIKE, WIRE EDGE GEM! A "FANTASTIC" NEEDLE SHARP STRIKE!** Interesting tiny die break at edge. **Neither the Guidebook nor Scott Catalogue lists this this in better than very fine.** Scott does state **"Extremely rare in full unc.".** Hawn didn't have a specimen (he couldn't find one choice enough). We cannot find a record of an equal specimen in modern years. Suffice to say, those who have been searching for "GEM" as a "Type", Date or Variety will understand what we believe to be literally **"A CHANCE OF A LIFETIME".**

It is useless to try and evaluate what this **"IN A CLASS BY ITSELF"** beauty might bring. Perhaps the notation on the envelope of "7/62 $4,000.00" might be of some interest. One of our friends, who recently visited us and saw the piece, offered to buy it outright for $10,000.00. We contacted the owner who answered "No, I won't sell it outright for $10,000.00. I consigned it for auction with the expectation that it will bring more." I twill be interesting to see if he was overly optimistic or whether his expectations will be realized.

1800 LIBEKTY HALF DIME

1019. **1800 LIBEKTY, virtually Uncirculated, only barest trace rubbing visible when examined with glass, lovely golden patina, (acquired as "Uncirculated"). RARE Early Die State Much Sharper Struck than Hawn coin** which had a rather sizable area on reverse flatly struck (due to die failure). This specimen has only a tiny portion where the die began to fail. Lovely attractive specimen for "type" or date. Probably now bring close to the $2,100 realized for the Hawn coin.

1801 V-2 UNCIRCULATED HALF DIME

1020. 1801 V-2, Rare early die date without die crack through IBERT and light break forehead through T to edge; beginning die failure at bust point and extending to only 2 segments of edge milling (most seen over the years come with heavy break, only moderate amount of edge milling missing on reverse.

LOVELY GLITTERING GOLDEN BLUE UNCIRCULATED. While it is the **sharpest struck specimen we can recall seeing,** it is softly struck (due to die failure) compared to some other dates. Breen states **"Probably the most difficult date in the series, and certainly the most underrated." We agree!** Breen further states **"Formerly considered much rarer than V-1 ("Very rare, nearly R-6, possibly within that level") but a number of specimens from Poor (the average condition) to Good have turned up, R-5. ONLY TWO SEEN ABOVE VF, the best being the so-called "DuPont" and Eliasberg coins."**

Scott states **"Unknown in unc., extremely rare in E.F."** We believe this to be **"THE FINEST KNOWN"!** Scott lists the 1801 as **THE SECOND RAREST DATE 1794 THROUGH 1805!** The corrected mintage is listed as 9,950 compared to 3,060 for 1802! This ratio of about 3 to 1 seems to agree with the frequency of appearance of these two dates over the years.

In trying to arrive at a value for this remarkable specimen, the following might be of interest: The Hawn 1802 Extremely Fine coin was awarded to a dealer at $14,000.00. The Hawn 1805 Uncirculated with "usual weakness of strike at the right border and edge of bust, and correspondingly on the reverse at the eagle's wing" brought $4,500.00. We believe this 1801 is as rare as that 1805. With the constantly increasing values being established by new records, this 1801 could now exceed 5,000.00

1803 V-2 UNCIRCULATED HALF DIME "FINEST KNOWN"?

1021. **1803 V-2, Large 8, REVERSE OF 1805, GLITTERING GOLDEN BLUE UNCIRCULATED GEM! Scott states "EXCESSIVELY RARE IN UNC." and does not value it above V.F.** Acquired in 1962 at $2,500.00. Breen states "Eliasberg has an unc. example with triple profile." Without comparing this remarkable specimen with Eliasberg's, we hesitate accepting the claim of this being the "Finest Known". Whether it is "Finest Known", "Equal To Finest Known" or other such statements, we do know it is **"EXCESSIVELY RARE".** Evidently Hawn could not locate a choice enough specimen, as it was missing in his extensive collection. We would not be surprised if this Great Rarity would reach or exceed double its 1962 cost of $2,500 or (11 years later) 5,000.00

1805 "CONDITION-CENSUS" HALF DIME

1022. **1805 GLITTERING GOLDEN VIRTUALLY UNCIRCULATED,** only barest friction, light contact marks on throat. **RARE! Neither the Guidebook nor Scott values it in better than V.F.** Scott states **"Obverse almost always weakly struck. Unique in strictly unc., excessively rare in E.F., extremely rare in V.F."** Similar in striking to the Hawn unc. coin described **"Usual weakness of strike at the right border and edge of bust, and correspondingly on the reverse at the eagle's wing. All known specimens have these various areas of uneven strike."**

Breen states **"Obverse almost always weakly struck with details of hair not up. Generally weak on upper right reverse. Parmelee's AU, and the Eliasberg and Atwater coins, EF or so, are apparently the best ones reported."** Therefore, this unusually choice specimen presumably is **"CONDITION-CENSUS" (one of six best known).** The Hawn unc. coin brought $4,500; this choice specimen probably worth around half.

1871-CC DIME CHOICE

1062. **1871-CC SHARP EXTREMELY FINE, bluish golden patina with luster;** if it were'nt for the characteristic slight porosity of "CC" mint planchets, we would be inclined to use more adjectives in its description. Scott Catalogue states "R6 Extremely Rare in Unc." and does not price it above V.F. The Guidebook has it V.F. $600 and Unc. $1,600.00. Oddly enough, the Guidebook 2 years ago had V.F. $475 and Unc. the same $1,-600.00. Evidently a very fine specimen changed hands in those years but not one sufficiently choice on which to base a change. Therefore, the $1,600 figure is "theoretical".

Hawn evidently couldn't locate an uncirculated specimen, as it was missing in his extensive collection. Rarity 6 means only 13 to 30 specimens known in all! **Rare in any condition but EXTREMELY RARE IN THIS CHOICE STATE OF PRESERVATION!** We believe an uncirculated specimen today would easily top $3,000.00. This Sharp Extremely Fine should bring well over 1,000.00

1872-CC DIME UNCIRCULATED

1063.—**1872-CC GLITTERING BLUISH GOLDEN SHARP STRUCK UNCIRCULATED! RAISED EDGE AROUND BOTH SIDES!** Scott states **"Excessively Rare Unc."**. Not in Hawn col. We could extol its rarity and desirability but suffice to say that advanced collectors know its rarity. We confidently expect bids of a few thousand dollars.

UNIQUE 1873-CC DIME UNCIRCULATED

1064. 1873-CC ARROWS, UNCIRCULATED BLUISH GOLDEN, slight porosity of planchet (characteristic of all genuine specimens we can recall seeing in our Forty Years As Professional Numismatists) evident when examined with glass.

Scott states **"Excessively Rare Above Fine. Unique (WGC) In Unc."**

We note Breen, in the Gilhousen catalog (Superior 10/1/73) describes that coin **"Obverse Very Good, reverse Good. As the date is unobtainable above Fine, the present specimen is very important and in fact one of the highlights of this offering! Probably about 1/10 of 1% of the original 18,791 mintage survive."** If our mathematics are correct, this means **THAT ONLY ABOUT 19 SPECIMENS TOTAL HAVE SURVIVED!**

In trying to arrive at some idea of its value, we came across the following about the 1804 quarter, and are sharing it with you. **"25¢ 1804, possibly R4 (76 to 200 known), 3 known unc. and rumors of a 4th."** Scott states **"Extremely rare in unc., very rare E.F."** and lists it V.F. $675 & unc. $5,750.00. The Guidebook lists it V.F. $750 & unc. $25,000.00. The $25,000.00 is the price an uncirculated specimen brought at Merkin's N.Y. auction a year ago, after spirited bidding. **THE 1873-CC DIME IS AT LEAST FIVE TIMES AS RARE AS THE 1804 QUARTER IN ALL CONDITIONS FROM GOOD ON UP! IN UNCIRCULATED, IT IS AT LEAST THREE AND POSSIBLY FOUR TIMES AS RARE!** Both references corroborate the **MUCH GREATER RARITY OF THE DIME** with the following ratio of values:

	1974 GUIDEBOOK		1971 SCOTT CATALOGUE	
	1873-CC Arrows Dime	1804 Quarter	1873-CC Arrows Dime	1804 Quarter
Good	$300.00	$175.00	$300.00	155.00
Fine	600.00	400.00	500.00	340.00
Very Fine	800.00	750.00	950.00	675.00
Unc.	(Unique)	25,000.00	UNIQUE	5,750.00

Since there has been a specatcular rise in values of the rarities in top grade during the past year, we believe that if an uncirculated 1804 quarter were auctioned now, it would bring closer to $50,000.00. **The 1873-CC dime is MUCH RARER!**

CARSON CITY "CC" DIMES 1875-78 CHOICE

1065. 1875-CC Mintmark below wreath, **GLITTERING GOLDEN UNCIRCULATED, SHARP STRUCK WIRE EDGE GEM!** Much scarcer than "CC" in wreath variety (Scott). Not in Hawn.

1066. 1877-CC Brilliant bluish **UNCIRCULATED, SHARP STRUCK WIRE EDGE GEM!**

1067. 1878-CC Brilliant golden UNCIRCULATED, SHARP STRUCK GEM! RARE. Greatly underrated! Valued in Scott at about 4½ times value of 1875-76-77-CC dimes. Coinage a mere fraction of that for the above three.

1875-CC 20¢ PIECE PROOFLIKE

1068. 1875-CC GLITTERING GOLDEN BLUISH PROOFLIKE! Rare earlier die state with only tip of left wing shoulder not full struck up, "Liberty" while sharper than usual, has just the beginning of the typical softness of strike. Lovely specimen.

1872-CC QUARTER CHOICE

1069. 1872-CC Extremely Fine with attractive bluish golden patina. Scott states **"Unknown in unc., Very Rare in E.F."** and valued it 3 years ago at $300 Fine and $500 Very Fine. **The Guidebook HASN'T CHANGED ITS VALUE OF $275 FINE & $500 V.F. FOR 10 YEARS (18th to 27th editions)!** It has the third lowest coinage of any year for CC quarters; only 1873-CC and 1870-CC have lower coinages. As stated in Scott, this specimen is **VERY RARE.** The owner, who is a discriminating collector, said that it was **the best he could find in many years searching.** Easily worth "Well Into Four Figures".

CARSON CITY "CC" QUARTERS 1876-78 CHOICE

1070. 1876-CC "Fine Reeding" variety. Scott states **"153 reeds instead of the usual 119. Dozens of times rarer than usual 1876-CC and not found on any other issue".** Appears to be Uncirculated at first glance, but close inspection reveals just the faintest rubbing, lovely golden luster.

1071. 1876-CC "PLAIN EDGE" (actually evidence of faint normal 119 reeds when viewed with glass) Extremely Fine with Luster. Bought as "RARE".

1072. 1877-CC BRILLIANT UNCIRCULATED, SHARP STRUCK, PROOFLIKE!

1073. 1878-CC "Cancelled" obverse die variety; we note a specimen in Superior 10/1/73 sale described **"plain straight die cut from near elbow at left along upper thigh to knee, as made. One of the few instances where a die cut of this kind is actually on the die and not a knife-cut on the coin; a naked-eye variety not listed in Taxay. Very RARE."** Golden Uncirculated, close inspection with glass reveals faint rub.

1870-CC "CONDITION-CENSUS" HALF DOLLAR

1074. 1870-CC Very close indeed to "Uncirculated" with only just the barest friction on the highest points, lovely iridescent bluish golden patina, SHARP STRUCK! Scott states **"Only one known in unc.".** Therefore **this choice specimen must be "CONDITION-CENSUS"** (six best condition coins). **No Drapery from elbow, similar to the photo of the Hawn coin,** which was a gem and presumably the unc. coin mentioned in Scott. The Hawn coin brought $13,500.00. No, this specimen is not worth that much but we do believe it will bring "Well Into Four Figures".

PLATE

1871-CC CHOICE HALF DOLLAR

1075. 1871-CC Not too far from Uncirculated with some friction on knee and breasts. the reverse is even sharper with only the barest friction on left leg feathers and left eagle's claws, pleasing light golden patina. Scott states **"Excessively rare in unc., Very Rare in E.F."** and does not price it in better than V.F. The exceptional Hawn coin brought $4,000.00. This specimen probably worth $1,000 or so.

PLATE

1076. 1872-CC Glittering lovely iridescent bluish golden Virtually Uncirculated, only faint traces of rubbing remove it from strictly uncirculated.

1873-CC NO ARROWS, UNCIRCULATED HALF DOLLAR

1077. **1873-CC No Arrows, GLITTERING GOLDEN BLUISH UNCIRCULATED,** only a tiny contact mark on the edge reeding keeps us from using superlatives. Stack's in cataloging the Hawn coin states **"The R. L. Miles coin is the only other Mint State specimen we can locate".** The Hawn coin went for what we consider a "bargain", only $2,300.00. We felt it would bring in excess of $3,000.00. It will be interesting to see what this exceptional specimen now brings in a constantly rising market.
PLATE

1078. **1873-CC WITH "ARROWS", Virtually Uncirculated, only slight rubbing on knee and breast, attractive golden patina.** SCARCE. Popular "type". The Hawn unc. coin brought $725; this worth proportionately.

1874-CC CHOICE HALF DOLLAR

1079. **1874-CC UNCIRCULATED EXCEPT FOR RUB ON KNEE, Brilliant to golden,** Scott states **"Extremely Rare In Unc."** The Hawn sale proved it by his uncirculated coin bringing $3,000.00. It will be interesting to see what this one now brings.
PLATE

CARSON CITY "CC" HALF DOLLARS 1875-77 CHOICE

1080. **1875-CC GLITTERING GOLDEN BLUISH UNCIRCULATED, SHARP STRUCK GEM!** The Hawn coin brought $525 in August; the continuing strong market coin brought $525 in August; the continuing strong market leads us to believe this gem will now bring somewhat more.

1081. **1876-CC GLITTERING GOLDEN BLUISH UNCIRCULATED, SHARP STRUCK WITH PROOFLIKE OBVERSE.** The Hawn coin also had a prooflike obverse and brought 650.00

1082. **1877-CC BRILLIANT GOLDEN UNCIRCULATED, SHARP STRUCK GEM! PRISTINE!** Variety **WITHOUT DRAPERY FROM ELBOW** (a glass reveals one faint line). Smaller total coinage of 1877-CC than for 1876-CC. RARE. Could bring into "Four Figures".

1083. 1877-CC Normal "With Drapery", a top-grade Extremely Fine with reverse practically Uncirculated, attractive golden patina.

1878-CC "GEM" HALF DOLLAR

1084. **1878-CC BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE. WE DO NOT SEE HOW A BETTER SPECIMEN COULD EXIST!** Scott states **"Extremely Rare In Unc."** The Hawn coin went at a "bargain" at only $2,300.00. We believe this pristine rarity will bring over 3,000.00

CARSON CITY "CC" DOLLARS 1870-72 CHOICE

1085. **1870-CC GLITTERING GOLDEN PROOFLIKE! A lovely specimen RARE SO CHOICE.**

1086. 1871-CC Extremely Fine. A sharp specimen with lovely golden bluish patina. **A MERE 1376 STRUCK OVER A CENTURY AGO, MAKING IT THE LOWEST COINAGE (by far) OF ALL THE CC MINT DOLLARS!** Easily worth "Well Into Four Figures."

1087. **1872-CC Rather close to Uncirculated with only slight friction. THE THIRD RAREST "CC" DOLLAR! Only 3,150 struck. A "Four Figure" item.**

CARSON CITY "CC" TRADE DOLLARS

1088. 1874-CC GLITTERING GRAY & GOLDEN UNCIRCULATED, CHOICE! Scarce.
1089. 1875-CC Uncirculated with bluish toning, SHARP STRUCK, 2 "bag-marks"
1090. 1877-CC Uncirculated bluish golden, typical strike with head-band and eagle's left claw not fully struck up. RARE DATE.

1875-S OVER CC TRADE DOLLAR CHOICE

1091. 1875-S OVER CC, Brilliant slightly golden virtually Uncirculated, only barest rubbing. Scott states **"R7." (7 to 9 known)!** The Superior sale (10/1/73) states **"Remains a full Rarity 7 despite over ten years of vigorous search; likely to remain a great rarity for the foreseeable future."** Particularly rare so choice.

CARSON CITY "CC" $5 GOLD

The "Explosion" in values for rare and choice gold, particularly in recent months, has made records (even recent ones) obsolete. Carson City gold seems to be in the forefront in popularity. Therefore, we feel it best to leave out obsolete records. The coins will stand on their own merit and rise to their own level of value.

1092. $5 1871-CC Near Uncirculated, quite sharp but lightly burnished. Scott states "Unknown in unc., extremely rare in E.F." RARE DATE.

1093. $5 1872-CC About Extremely Fine (reverse sharper than obverse). Scott states "Unknown in unc."
1094. $5 1874-CC Very Good.

1095. $5 1876-CC Near uncirculated, sharp but lightly burnished. Scott states "Unknown in unc." LOWEST MINTED "CC" $5 GOLD!

1096. $5 1877-CC Extremely Fine. Scott states **"Unknown in unc., Excessively Rare In E.F." RARE DATE!**

1097. $5 1880-CC UNCIRCULATED, obverse some toning, reverse brilliant.
1098. $5 1882-CC UNLISTED VARIETY, Second "C" Recut At Top, near uncirculated, only slight friction.

UNLISTED 1891-CC $10 GOLD RECUT "CC"

1101. $10 1891-CC UNLISTED DOUBLE-PUNCHED "CC" with First CC to Right of Final CC. BRILLIANT UNCIRCULATED, SHARPLY STRUCK but with the usual "bag-marks".

Consignment Penna.

1858 OVER INVERTED DATE HALF DIME PROOF?

1102. **1858 OVER INVERTED DATE, BRILLIANT GOLDEN PROOF SURFACE BOTH SIDES, SHARPLY STRUCK WITH RAISED EDGE BOTH SIDES GENERALLY ASSOCIATED WITH PROOFS!** A "Fantastic" specimen acquired years ago as the regular 1858 Proof. Undoubtedly, **THE FINEST KNOWN OF THIS RARE VARIETY!** Probably a **"PRESENTATION PIECE". We believe this to be UNIQUE in this condition!**

1797 16 STARS "MINT STATE" DIME

1103. **1797 16 Stars, GLITTERING GOLDEN UNCIRCULATED WITH FULL LUSTER!** A remarkable specimen which would easily qualify as "CONDITION CENSUS". Variety with die break from edge through bottom of bust, top of 17 and through star. The choicest specimen of this variety we have seen, even though some stars, to pof right wing shoulder and some breast feathers are not fully struck up. The eagle's head is fully struck up with even the eye sharp! Should bring a "run-away" price.

1804 CHOICE DIME

1104. **1804 14 STARS REV., Extremely Fine & Sharp with only slight friction, 2 faint hairlines across cheek visible when closely examined, BOLD STRIKE with all reverse stars complete and visible; only left obverse stars not completely struck up. Scott catalogue states "Unknown in unc., very rare in E.F." Well worth into four figures.**

EARLY DIMES

1105. **1823 Over 22, small E's UNCIRCULATED GOLDEN, a choice specimen with stars fully struck up! Rare. Popular type. Records well into four figures.**
1106. 1830 Small 10¢, UNCIRCULATED LIGHT GOLDEN, Sharp Struck, Records into mid and upper three figures.

1841 NO DRAPERY DIME
UNIQUE?

1107. 1841 NO DRAPERY, STRUCK AS A PROOF WITH RAISED EDGE AND "SQUARE BORDERS"! It has seen some circulation as there is slight friction on the knee, **MUCH OF ORIGINAL PROOF SURFACE STILL REMAINING.**

This specimen was in a New Netherlands sale about 10 years ago described there as "Once A Proof". They stated there that they knew of only three specimens; this one, a proof (mentioned twenty odd years prior - but unverified since) and the WGC (World's Greatest Collection) one. Careful comparison of this specimen with the plate in WGC catalog reveals that THIS IS THAT IDENTICAL SPECIMEN! Since the actual existence of the proof has not been verified, **THIS SPECIMEN COULD THEN BE UNIQUE! THE SMITHSONIAN DOES NOT HAVE ONE!**
New Netherlands had this to say:

"The missing drapery resulted from an over-ambitious polishing or "proofing" of the obverse die. The diameter of the stars has also been diminished in the process. The rim is much broader than on the business strikes for this year, which fact should satisfy any doubts which might exist regarding its proof origin."

How does one go about establishing the value of a **UNIQUE** coin which has been on every collector's want list?

It is certainly rarer than the 1913 Liberty Head Nickel which a dealer bought for $100,000.00 last year.

It is certainly rarer than the 1804 Dollar which a dealer bought for $80,000.00 last year.

It is certainly rarer than the 1907 Extra High Relief Roman Date $20 which recently sold for $125,000.00.

BECAUSE IT IS IN A "CLASS BY ITSELF", WE NAME IT THE **"MONA LISA" DIME!** THE "MONA LISA" PAINTING IS IN A "CLASS BY ITSELF" As THE MOST VALUABLE PAINTING. Mehl named the **1804 Dollar as "THE KING OF AMERICAN COINS"** and Stack's named the **1841 Quarter Eagle "THE LITTLE PRINCESS".** This UNIQUE 1841 NO DRAPERY DIME will henceforth be known as **"THE MONA LISA" DIME.**

Regardless of the price now paid, we firmly believe it will eventually reach a "Mona Lisa" price. **PLATE**

LIBERTY SEATED DIMES

1108. 1856 Small date, uncirculated with deep bluish golden patina, sharp struck.
1109. 1856 Small date, uncirculated golden, 3 stars & 2 leaves not struck up.
1110. 1860 PERFECT BRILLIANT PROOFLIKE GEM! We had to examine it carefully before confirming it was not a proof. Quite rare in this remarkable condition.
1111. 1863 **BRILLIANT TO BLUE & GOLDEN UNCIRCULATED SHARP STRUCK GEM WITH PROOFLIKE SURFACES!** We gave careful examination to this beauty before accepting it as Uncirculated and not a proof due to the much greater rarity of Uncirculated than proof in this date. A pristine example fully deserving of "MINT STATE 70" grade. Not in Hawn collection (Aug. 29, 1973 Stack's auction) which did have 1863 half dime gem unc. which brought $550 (18,000 business-strikes compared to only 14,000 for this dime) and 1864 half dime gem unc., which brought $1,100.00. Scott Catalogue lists the 1864 hal fdime unc. as R6 and 1863 dime unc. as R5.
1112. **1866 BRILLIANT UNCIRCULATED SHARP STRUCK GEM, PROOFLIKE OBVERSE, MINT FROST REVERSE.** Deserving of the accolade "MINT STATE 70". Not in Hawn collection which did have the 1865 (10,000 business strikes) which brought $700.00. The 1866 has a coinage of only 8,000 business-strikes.
1113. **1873 ARROWS, BRILLIANT PROOF, CHOICE! SETTING NEW RECORDS.**

1126. 1915-S Another Brilliant Uncirculated, SHARP STRUCK GEM!

MERCURY DIMES — CHOICE

1127. 1916-D Brilliant Uncirculated, CHOICE! Delp (Stack's 11/72) coin a year ago brought $900; we confidently expect this now to bring into the "Four Figures".
1128. 1921-D Near Uncirculated, Sharp, only slight friction. Scarce.

TWENTY-CENT PIECES

1129. 1875-S Brilliant Uncirculated, "Frosty", CHOICE!
1130. 1875-CC Rare variety with eagle's wing fully struck although eagle's breast feathers and knee not full, Brilliant golden Uncirculated. SCARCE.
1131. 1876 Glittering golden blue PROOF.
1132. 1877 GLITTERING IRIDESCENT GEM PROOF! RARE!
1133. 1878 GLITTERING GOLDEN WIRE EDGE PROOF, faint hairline. RARE.
1134. 1878 LITTERING IRIDESCENT GEM PROOF! RARE. The Delp coin a year ago brought $700; surely this should now reach closer to 1,00.00
1135. 1878 GLITTERING GOLDEN BLUE WIRE EDGE PROOF. RARE.

1114. **1894-S BRILLIANT SLIGHTLY GOLDEN PROOFLIKE WITH RAISED EDGE AROUND BOTH SIDES!** Careful examination with glass reveals slight rub spot between wreath and DIME and short scratch below wreath extending from "S" to right.

Scott Catalogue lists it under **"BRANCH MINT PROOFS"** on page 273 and states: **"24 STRUCK. Occasion unknown. R7, including one which entered circulation and is now in only "good" condition. All genuine specimens have a tiny rectangular die defect at the base of E in word DIME. One of the most sought after of U.S. coins because of no regular issue for this date and mint."**

The Guidebook has **"1972 PRIVATE SALE $50,000.00."** It was purchased by a dealer who proudly displays it and values it "Considerably More". We have seen it valued at $100,000.00 by one of the "quote" or "valuation" graphs periodically published purporting to give "current values".

This particular specimen has been traced back to Jim Kelly of Dayton, Ohio. One of the country's leading dealers in former years.

It is certainly **"THE MOST WANTED DIME"** and **"ONE OF THE THREE MOST WANTED UNITED STATES COINS".** These three being the **1804 DOLLAR, 1913 LIBERTY HEAD NICKLE and the 1894-S DIME.** Of these three, the 1804 Dollar was first struck in 1834 and the 1913 Liberty Head Nickel was never authorized (it is listed in Scott Catalogue on page 283 under "SIMULATED SERIES COINS"). **THE ONLY ONE OF THESE THREE TO BE OFFICIALLY ISSUED IS THE 1894-S DIME!** We believe the 1894-S dime, due to its "Official Issue", will surpass the other two in value in the not too distant future.

1796 "MINT STATE" QUARTER

1136. **1796 PROOFLIKE, SHARPLY STRUCK WITH ALL STARS COMPLETELY FULL, COMPLETE & SHARP EDGE SERRATIONS BOTH SIDES! Glittering bluish golden, EXCESSIVELY RARE VARIETY WITH EAGLE'S HEAD STRUCK UP!** Close examination with glass reveals faint "mint equalization marks" across center of reverse. **SUPERIOR IN STRIKE TO THE TERREL COIN** (flat eagle's head and breast feathers) in American Auction Ass. sale May 18, 1973 which brought $17,000.00. A remarkable specimen of this "ONE YEAR ONLY" Type destined to set a new record.

PLATE

EARLY QUARTERS

1137. 1805 Fine obverse, Very Fine reverse. Unusually nice strike. 300.00

1138. **1806 Virtually Uncirculated with lovely natural gray golden patina, only barest friction. ONE OF THE SHARPEST STRUCK SPECIMENS WE HAVE SEEN! In fact, sharper than most "Uncirculated" specimens we have seen sold in the last year or so.** If not for the slight friction, we would not hesitate pricing this beauty at $5,000.00. It will be interesting to see what the keen demand for a sharply struck specimen such as this, sends it to.

1139. 1819 Small 9, variety with "255" reverse, Virtually Uncirculated, only barest friction high points, strong demand for "type". Scarce.

1825 "GEM" UNCIRCULATED QUARTER

1141. **1825 Over 24, wide 25 C, BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! Much rarer than usual 1825 over 23 variety offered. POPULAR "TYPE".**

1834 PROOFLIKE QUARTER

1142. **1834 Glittering golden Uncirculated with PROOFLIKE SURFACE OBVERSE & REVERSE, SHARP STRUCK GEM!**

LIBERTY SEATED QUARTERS

1143. **1841 Glittering golden bluish UNCIRCULATED, SHARP STRUCK! Low coinage.**

1144. **1845 Glittering golden UNCIRCULATED, SHARP STRUCK! Scott states, "Very rare in unc."**

1145. **1846 Golden PROOF, a glass reveals faint hairlines and tiny nicks in left field, on cheek and in right field. RARE. Seldom offered.**

1146. **1853 NO ARROWS, Recut Date, very fine. RARE. VERY LOW COINAGE.**

1147. **1853 RAYS & ARROWS, Uncirculated with deep golden patina. POPULAR!**

1148. **1855-O Arrows, Top-Grade Extremely Fine with only slight wear. Scott states, "Excessively rare in unc." Easily worth a "Mid Three Figure" price.**

1149. **1855-S Arrows, Large Bold "S", GLITTERING GOLDEN UNCIRCULATED! states "Extremely Rare In Unc." and values it $800 in the nearly 4 year old reference. Should exceed** **1,500.00**

1150. **1856-S LARGE S Over small s,** very good (evidence of tooling — to remove solder?). **Scott states "2 KNOWN"!**

1151. **1874 ARROWS, Uncirculated golden. Scarce. Popular "Type".**

1823 OVER 22 QUARTER
UNIQUE? PROOFLIKE "PRESENTATION PIECE"

1140. 1823 OVER 22, GLITTERING BLUE PROOFLIKE OBVERSE & REVERSE, HIGH RAISED WIRE EDGE AROUND BOTH SIDES WITH REEDING SHARP & "SQUARE" GENERALLY ASSOCIATED WITH PROOFS! It appears that abnormal pressure was used in striking this lovely specimen and resulted in the highest points being slightly flattened in the process.

A careful examination of this remarkable specimen will reveal that the slight flatness was not caused by wear. Identifiable by the minute nick after date.

Scott states, "Borderline Rarity 7, Unknown In Full Unc." We believe this is "THE FINEST KNOWN" specimen and "UNIQUE" as a "PRESENTATION PIECE"! As a date, THIS IS THE RAREST DATE QUARTER! The 1827 has long been regarded as the rarest date but when one adds up the known originals and restrikes, they exceed the 1823 in number.

In addition, the 1827's come in proof but the 1823 is generally seen in only fair to good with "very good" being either "condition-census" or close to it; "Fine to very Fine" would be High Up In "Condition-Census". This choice specimen then is "In A Class By Itself"!

In October, 1972 Merkin's auction (N.Y.) had an uncirculated 1804 quarter. After spirited bidding, it was "knocked down" to the successful buyer at $25,000.00. There are at least 3 and possibly 4 uncirculated specimens said to be known. In addition, it is said to be Rarity 4 (75 to 200 known) compared to Borderline Rarity 7 (11 or 12 known). This specimen last appeared upon the market 6 years ago at $15,000.00. We believe this "Fantastic" specimen should now exceed $50,000.00. There are more known specimens of the 1838-O Half Dollar than there are of the 1823 quarter. The 1838-O Half Dollar appeared upon the market twice this year; At auction where it realized $41,000.00 and in a fixed price list at 75,000.00

THIS 1823/22 QUARTER IS RARER THAN THE 1838-O HALF DOLLAR!

LIBERTY SEATED QUARTERS

1152. **1878-S Extremely Fine with pleasing bluish golden patina. Rare so choice. Worth between the V.F. $400 and Unc.** **1,000.00**
1153. **1879 BRILLIANT PROOF, CHOICE! Only 250 struck.**
1154. 1880 Glittering gray & iridescent PROOF, CHOICE.
1155. 1880 BRILLIANT GOLDEN GEM PROOF!
1156. 1883 BRILLIANT GEM PROOF! PRISTINE!
1157. 1885 PERFECT GLITTERING BLUISH GOLDEN PROOFLIKE GEM! So choice that it is close to the quality in striking of a proof. Much rarer than proof.
1158. 1886 BRILLIANT GEM PROOF! Very Low Total Coinage.
1159. 1887 PERFECT ("Mint State 70") GLITTERING GOLDEN PROOFLIKE GEM! Complete prooflike surface. Much rarer than proof.
1160. 1888 Brilliant "Frosty" Uncirculated GEM! PRISTINE.
1161. 1891 Brilliant Iridescent Proof, GEM except minute carbon fleck.

BARBER QUARTERS

1162. 1892-O Brilliant "Frosty" Iridescent UNCIRCULATED GEM! Pristine!
1163. **1895 "CAMEO-SHARP" PROOF, EXTREMELY HIGH WIRE EDGE, BRILLIANT BLUE & PURPLE GEM! Must be seen to be believed!**
1164. **1896-O Brilliant Iridescent SHARPLY STRUCK UNCIRCULATED, RAISED EDGE BOTH SIDES! A "Fantastic" specimen of this rarity.**

1165. **1896-S BRILLIANT UNCIRCULATED, SHARP STRUCK GEM!** A glass reveals some minute carbon flecks but it would be difficult to locate an equal. We note most of the Barber quarters have brought double or even close to triple catalog value in GEM condition. Surely this "Key Rare Date" will bring a price commensurate with its rarity.

1166. **1897-S Brilliant light golden UNCIRCULATED, SHARP STRUCK GEM! A year ago the Delp (Stack's 11/72) coin brought $340; surely this rarity now worth over** **500.00**
1167. **1899-S Brilliant Uncirculated, SHARP STRUCK GEM! PRISTINE! Rare.**

1901-S "GEM" UNCIRCULATED QUARTER

1168. **1901-S BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE! We do not see how a choicer specimen of this outstanding rarity could exist!** The Patten coin (Stack's 5/73 auction) brought $3,750.00. Now, half-a-year later, we believe this magnificent specimen will realize closer to 5,000.00
1169. **1905-S Glittering Golden UNCIRCULATED, SHARP STRUCK GEM! PRISTINE! Truly rare in this condition.**
1170. 1907 Brilliant golden UNCIRCULATED, SHARP STRUCK GEM!
1171. **1908-S Brilliant UNCIRCULATED, SHARP STRUCK GEM! PRISTINE! Rare date.**
1172. 1911-D Brilliant Golden UNCIRCULATED GEM! Scarce date.
1173. 1911-S Brilliant UNCIRCULATED, SHARP STRUCK GEM! PRISTINE!
1174. 1911-S Brilliant slightly golden UNCIRCULATED, SHARP STRUCK GEM! PRISTINE!
1175. **1912-S Brilliant UNCIRCULATED, SHARP STRUCK GEM! SCARCE DATE.**
1176. **1914-S BRILLIANT UNCIRCULATED GEM! The Delp coin a year ago brought $525; now worth somewhat more.**
1177. **1915 BRILLIANT BLUISH GOLDEN GEM PROOF! PRISTINE! Only 450 struck.**
1178. 1915-S Brilliant Uncirculated, SHARP STRUCK GEM! PRISTINE!

LIBERTY STANDING QUARTERS

A marked rise in popularity of this series during the past year leads us to expect new records to be set for these exceptional specimens.

1179. **1916 Brilliant slightly golden UNCIRCULATED, SHARP STRUCK GEM! A mere 52,000 struck, making it The Lowest Coinage (by far) of this series. well worth into "Four Figures".**
1180. 1917 Type I, Brilliant Uncirculated, FULL HEAD, SHARP STRUCK GEM! PRISTINE.

LIBERTY STANDING QUARTER

1181. 1917-D Type I, Brilliant Uncirculated, FULL HEAD, SHARP STRUCK GEM! PRISTINE!
1182. 1917-S Type I, Brilliant golden Uncirculated, FULL HEAD SHARP STRUCK GEM!
1183. 1917 Type II, Brilliant Uncirculated, FULL HEAD SHARP STRUCK GEM! PRISTINE! Dificult to find so sharp.
1184. 1917-S Type II, Brilliant golden Uncirculated, FULL-HEAD, CHOICE! Scarce thus.
1185. 1917-D Type II, Brilliant golden Uncirculated, FULL HEAD GEM! RARE THUS.
1186. 1918 Brilliant Uncirculated, FULL HEAD SHARP STRUCK GEM! Rare thus.
1187. 1918-S Brilliant Uncirculated GEM! Usual incomplete head.

1918-S, 8 OVER 7 QUARTER

1188. 1918-S, 8 OVER 7, Virtually Uncirculated, only slight rubbing highest points, considerable luster. Head medium full strike, sharper strike than most but not completely full. THE RAREST QUARTER OF THE SET! Catalogs $3,250 uncirculated, but a completely full head uncirculated specimen would probably exceed $5,000.00 (if it were available).

1189. 1919 Brilliant Uncirculated, FULL HEAD GEM! Usual partial softness in striking of date.
1190. 1919-D Brilliant Uncirculated, FULL HEAD GEM! PRISTINE! One Of The TOP RARITIES in the series this sharply struck. Well worth into the "Mid to High Three Figures".
1191. 1919-S Brilliant uncirculated, 80% FULL HEAD GEM! PRISTINE! Rare Date.
1192. 1920 Brilliant golden Uncirculated, SHARP STRUCK GEM! PRISTINE! Rare thus.
1193. **1920-D Brilliant Uncirculated, Sharper Head Than Most Seen but still not completely full, SHARP STRUCK DATE, GEM! PRISTINE. RARE SO CHOICE.**
1194. **1920-S Brilliant Uncirculated, FULL HEAD GEM! RARE THUS! Particularly difficult date to find with Full Head.**
1195. 1921 Brilliant Uncirculated, FULL HEAD GEM! PRISTINE! RARE DATE.

1197. 1923-S Brilliant Uncirculated, FULL HEAD GEM! PRISTINE! RARE DATE.
1198. 1924 Brilliant (golden halo) Uncirculated, FULL HEAD GEM! PRISTINE!
1199. 1924-D Brilliant Uncirculated, SHARP STRUCK DATE, 90% FULL HEAD GEM! PRISTINE. One of the rarest dates this sharply struck! Well worth "Mid Three Figures".
1200. 1924-S Brilliant Uncirculated, FULL HEAD GEM! PRISTINE! Rare thus.
1201. 1925 RECESSED DATE TYPE, Brilliant Uncirculated, FULL HEAD GEM! PRISTINE! Year old record of $150.00. Popular "First Year of Type."

1927-S "FULL HEAD" GEM QUARTER

1202. 1927-S BRILLIANT UNCIRCULATED, FULL HEAD GEM! A remarkable specimen of the SECOND RAREST DATE OF THE SET. Easily worth over 1,500.00

1203. 1928-D Brilliant (golden halo) Uncirculated, FULL HEAD GEM! PRISTINE. RARE SO SHARP!
1204. 1929 Brilliant golden Uncirculated, FULL HEAD GEM! Popular for "type".
1205. 1929-D Brilliant Uncirculated, FULL HEAD GEM* PRISTINE! RARE SO SHARP!
1206. 1929-S Brilliant Uncirculated, FULL HEAD GEM! PRISTINE!
1207. 1930 Brilliant Uncirculated, FULL HEAD GEM! PRISTINE!
1208. 1930-S Brilliant Uncirculated, FULL HEAD GEM! PRISTINE!

1796 HALF DOLLAR — CHOICE

1209. 1796 15 Stars, **SMALL EAGLE** with "½ BELOW, **NICE SHARP EVEN STRIKE WITH ONLY SLIGHT EVEN FRICTION BOTH SIDES!** It would be difficult to argue with its **"ABOUT UNCIRCULATED"** attribution. **One of the most attractive and desirable specimens we have encountered in our forty years as professional numismatists!** Well worth into "Five Figures".

PLATE

1803 HALF DOLLAR UNCIRCULATED

1210. 1803 Small 3, **UNCIRCULATED BRILLIANT TO GOLDEN CENTER WITH BLUE PERIPHERY.** The unc. Hawn coin (Stack's 8/73 auction) was **"weak on the eagle's head and adjacent stars".** This specimen (comparing it with the photograph of the Hawn coin) has the **eagle's head and adja--cent stars sharper** (although still not completely full). The **obverse stars at right are much sharper than the Hawn coin.** Undoubtedly **"HIGH UP IN CONDITION-CENSUS"!** In fact, **THE CHOICEST SPECIMEN WE CAN RECALL APPEARING IN ALL OUR 300 SALES!** The Scott Catalogue acknowledges its great rarity in uncirculated by not attempting to value it in this condition. The Guidebook value unc. is "theoretical" as we do not know of any record for a true uncirculated specimen selling the previous year on which the price could be based. **EXCESSIVELY RARE UNCIRCULATED!** The Hawn coin, we felt, sold at a "bargain" at only $2,700; we believe an uncirculated specimen to be worth upwards of 3,500.00

1806 HALF DOLLARS — CHOICE

1211. 1806 5, **UNCIRCULATED LUSTROUS BLUISH GOLDEN, WIRE EDGE BOTH S!DES!** A lovely specimen of Overton 101 variety with **sharper impression than generally encountered;** the stars, while not all completely struck up, are still much sharper than generally seen over the years. **Even the eagle's claws are Full & Sharp!** Scott does not value this in unc. due to its rarity. Surely this choice specimen is **"CONDITION-CENSUS"** (top 6 condition known). The Gem Hawn coin brought $6,000.00 This specimen, while not quite as choice as the exceptional Hawn coin, is Highly Desirable and well worth several thousand dollars.

1212. 1806 Over 5, Overton 103 variety, very close to Uncirculated, only barest friction. **Superior to Overton plate coin! Rare thus.**

1213. **1806 Over 5, Overton 104 with much of underlying 5 visible, extremely fine with missing cloud and star characteristic of this variety. Far superior to Overton plate coin! VERY RARE VARIETY & CONDITION.**

1214. 1806 Over 9 (inverted 6) Overton 112, Extremely Rare variety struck from shattered obverse die (which accounts for its great rarity). A top-grade Extremely Fine specimen **FAR SUPERIOR TO OVERTON PLATE COIN!** Much of what appears to be wear is actually due to the weakness in striking caused by the shattered die.

1215. 1806 Pointed 6 stem thru claw, O-116 variety (Rare), near Uncirculated with much luster, only slight friction.

1807 HALF DOLLARS — CHOICE

1216. 1807 BUST LEFT, Large Stars, near Uncirculated, only slight friction.

1217. **1807 50 OVER 20, BUST LEFT, BRILLIANT UNCIRCULATED, SHARP STRUCK WITH HIGH WIRE EDGE AROUND BOTH SIDES, GEM! PRISTINE WITH FULL SHIMMERING PROOFLIKE LUSTER! EVERY STAR COMES TO A POINT AND HAIR LINES RAZOR SHARP.** Lovely light golden and blue color. **"MINT STATE 70"!** We do not see how a choicer specimen could exist. We confidently predict a "run-away price" for this fantastic specimen.

1808-1815 HALF DOLLARS-CHOICE

1218. **1808 Over 7, Uncirculated shimmering golden bluish with ALL STARS SHARP & COMING TO A POINT.** This style bust & eagle struck only 1807-08. We note a specimen advertised on page 1660 of 9/73 Numismatist as "Uncirculated Mint State 65" for $1,500.00. There doesn't seem to be any stopping the rapid rise in prices for choice specimens of these elusive early coins.

1219. 1808 BRILLIANT GOLDEN BLUISH SHARP STRUCK UNCIRCULATED GEM! PRISTINE "MINT STATE 70"! Overton 109 variety which he lists as RARITY 4.

1220. 1810 Glittering Bluish Golden UNCIRCULATED. A remarkably choice specimen with sharp struck eagle wings (The Hawn coin had the left wing a trifle weak). The Hawn coin brought $900; present value?

1221. 1811 Over 10, Date 18.11 (later die state without traces of O under 1) BRILLIANT SLIGHTLY GOLDEN UNCIRCULATED! Overton 102 variety which he lists as RARITY 6 (ONLY 13 TO 30 KNOWN) with left stars Full & Sharp and right stars not completely full, only slight milling. **VERY RARE VARIETY IN EXCESSIVELY RARE CONDITION!** Much rarer than 1808/7 or other varieties listed above.

1222. 1812 Over 11, small 8 BRILLIANT UNCIRCULATED WITH LOVELY BLUE PATINA AROUND EDGE, SHARP STRUCK although some stars not completely full (similar in striking to photo of Hawn coin) A lovely specimen of this scarce overdate. The Hawn coin brought $750; the rise in market values since then leads us to expect it to now realize closer to 1,000.00

1223. **1815 Over 12,** Extremely Fine & Sharp. A choice specimen showing only nominal wear. Unusually sharp strike. **SCARCE.** Well worth a "High Three Figures."

1817-1836 HALF DOLLARS — CHOICE

1224. 1817 Date Wide spaced 1 8 1 7, **BRILLIANT GOLDEN UNCIRCULATED WITH ALL STARS NEEDLE-SHARP!** Overton 109 variety with both 0 & C in OF AMERICA Recut, RARITY 4. A Very Scarce variety far superior to Overton plate coin! Undoubtedly **"HIGH IN CONDITION-CENSUS"!** We note the Hawn coin "date spaced 1 81 7" brought $800; surely this lovely Rarity 4 specimen now worth over 1,000.00

1225. 1817 OVER 13, BRILLIANT UNCIRCULATED WITH LOVELY BLUE "HALO" AROUND PERIPHERY, NEEDLE-SHARP STRIKE WITH REMARKABLY HIGH & SHARP EDGE AROUND BOTH SIDES! A most unusual coin which we confidently predict will bring well into "Four Figures".

1226.....1819 Over 18, Large 9, **BRILLIANT UNCIRCULATED WITH LOVELY BLUISH GOLDEN "HALO" AROUND PERIPHERY, SHARP STRIKE WITH CENTER POINTS OF STARS COMPLETELY FULL!** Overton 105 variety with solid bar joining tail to loop of 9. RARITY 4 compared to Rarity 1 for the usual 1819/18 Large 9 variety. The Hawn "1819/18 Large 9" brought $425; surely this many times rarer variety worth closer to 1,000.00

1227. 1820 Small late, curl-base 2, BRILLIANT GOLDEN UNCIRCULATED, SHARP STRUCK WITH PROOFLIKE SURFACE BOTH SIDES! EVERY POINT OF EVERY STAR SHARP! Hawn had the other four major varieties of 1820 listed in the Guidebook but not this one. The reason now becomes apparent. Overton 103a variety listed Rarity 4. The other four major varieties are listed as Rarity 1 or Rarity 2. Since Hawn's 1820 square base, no knob 2, large close date (Rarity 1) in gem brought $700, we feel this MUCH RARER Variety in PROOFLIKE condition should bring at least double.

1228. 1825 Brilliant Uncirculated, CHOICE!
1229. 1829 Brilliant Uncirculated with slight blue "halo" around edge, variety with some stars and hair strand back of Y not fully struck up. although eagle's claws and wings quite sharp. The Hawn (choicer than this — different variety) brought $425; this worth?
1230. 1830 Small o, Brilliant slightly golden Uncirculated GEM! Hawn coin brought $325; the rise in market values since then leads us to believe this choice specimen will now bring somewhat more.
1231. 1836 Lettered Edge, Brilliant slightly bluish Uncirculated with full luster, usual strike. Hawn coin brought $270 in August; probably now worth closer to 300.00

1836 50¢ OVER 00 HALF DOLLAR UNCIRCULATED

1232. **1836 50 C over OO, BRILLIANT GOLDEN BLUISH UNCIRCULATED!** In cataloging the Hawn coin, Stack's stated "It is a Rarity 7 item just for the blunder part, but as a Proof it has to be Rarity 8. Worth over $2,000.-00." It brought $3,500.00. Rarity 7 means not over 12 coins total in all conditions known and could possibly be several less (down to 4). An unusual opportunity to acquire one of the rarest half dollars in choice condition! We would be greatly surprised if this rarity didn't realize "well into Four Figures".

REEDED EDGE BUST "50 CENTS" HALVES 1836-1837

1233. **1836 REEDED EDGE, GLITTERING BLUE UNCIRCULATED,** tiny edge dinge not readily noticeable unless held on end. **ONLY 1200 STRUCK MAKING IT THE LOWEST COINAGE LISTED FOR ANY DATE HALF DOLLAR!** Setting new records just about every time offered. Hawn coin brought $1,600; we expect the trend to continue with this specimen topping 2,000.00

1234. 1837 "50 CENTS" Reverse as above, BRILLIANT GOLDEN BLUE UNCIRCULATED, SHARP STRUCK GEM! A remarkable specimen of this popular "type" struck only in late 1836 & 1837. We would be disappointed if bidding didn't send it into "Four Figures".
1235. 1837 Brilliant Uncirculated, SHARP STRUCK, CHOICE!

1837 POSSIBLE PATTERN HALF DOLLAR?

1236. 1837 From a 1972 sale described **"1837 VERY BROAD PLANCHET (larger than regular 1837) BROAD RAISED EDGE (obverse), WIRE EDGE (reverse), bifurcated top of T in CENTS, Uncirculated blue toning, faint "cabinet friction". The owner believed this to be a pattern since it differed from the regular halves of this date. No 1837 patterns are in the Judd book. The act authorizing this coinage was not passed until Jan. 18, 1837.**

A most interesting piece worthy of research. Whatever the reason for the striking of this specimen, IT IS UNDOUBTEDLY OF THE GREATEST RARITY!"

We have measured this lovely Glittering Iridescent Peacock-Blue & Gold piece and it measures an astonishing 32mm.

It is difficult to attempt to place a value on such rarity. Probably a "Mid Four Figures" extending into "Five Figures" would be a "guesstimate".

"HALF DOL." TYPE HALVES 1838-1839

1237. 1838 "HALF DOL." REVERSE, Uncirculated bluish golden. The superior Hawn coin brought 750.00

1238. 1839 "HALF DOL." Glittering Bluish Golden Uncirculated. Hawn coin brought 650.00

1239. 1839-O Mint Mark Above Date as in 1838-O, Uncirculated golden but close examination reveals several minor abrasions. The Hawn gem brought $1,050; this worth half, or perhaps less.

1839 NO DRAPERY "SPECIMEN STRIKE" HALF DOLLAR

1240. **1839 NO DRAPERY, SHARP "SQUARE RAISED EDGE" CHARACTERISTIC OF PROOFS, COMPLETE PROOF SURFACE BOTH SIDES and UNUSUALLY SHARP IMPRESSION!** Acquired as **"PROOF, EXCESSIVELY RARE"!** It has many of the characteristics generally associated with proofs but since it does not have all, we would rather be a bit conservative and call it a **"SPECIMEN STRIKE".** A glance at this remarkable specimen will show that **"Special Care"** was given to its manufacture. Whether it was intentionally struck as a Proof, or struck from Proof dies immediately after the striking of the few proofs, or **"Made Up Special"** for some **"Presentation"** purpose would be a good subject for further research.

LOVELY GLITTERING IRIDESCENT with only a few microscopic marks in field above eagle's head (not readily noticeable). The unusual force used in striking this piece may possibly account for the slight flattening of the top haird strand and breast of Liberty.

In strong demand as this "type" was produced only a very short time in 1839, along with the previous bust type and later "with drapery" type. As we go to press, we note an ad on page 5 of the Coin World just received, offering a **"Ch. Brill. Proof" at $25,000.00.** The demand for a top-grade" specimen of this rare type is so strong that we expect that coin will be sold by the time of this sale. PLATE

LIBERTY SEATED HALF DOLLARS — CHOICE

1241. 1846-O Small Recut Date, PARTIAL DRAPERY (only one line from elbow) **Lovely Glittering Iridescent Uncirculated, SHARP STRUCK WITH RAISED EDGE BOTH SIDES!** The normal 1846-O drapery Hawn coin brought $375; surely this RARE VARIETY now worth much more; perhaps double or even triple.

1849 DOUBLED DATE "HIGH R7."

1242. 1849 From 1972 sale described **"1849 DOUBLED DATE, second date punched FAR TO RIGHT OF FIRST DATE, UNCIRCULATED! The Scott Comprehensive Catalogue And Encyclopedia of U.S. Coins has "HIGH R7. (ONLY 4 TO 6 KNOWN)". Note on envelope has "SEE STANDARD CATALOGUE 1957". "FINEST KNOWN OF THIS EXCESSIVELY RARE BLUNDERED DIE, 1,000.00".** (1,500.00)." It brought $1,050 then; when "common date" Liberty Seated unc. were bringing about one-third what they now realize. Not in Hawn or other noteworthy recent auctions.

This lovely Glittering Bluish Golden PROOFLIKE (obverse) with High Wire Edge on a comparative scale should now bring between $3,000 and 3,500.00

1286. 1913-S BRILLIANT UNCIRCULATED GEM! PERFECTION! Must be seen to be believed. The Delp coin (Stack's 11/72) brought $575; surely a year later this remarkable specimen worth closer to 1,000.00

THE LOWEST COINAGE BARBER HALF

1287. 1914 BRILLIANT UNCIRCULATED GEM! PERFECTION! A choicer one couldn't exist. The Delp coin a year ago brought $650; surely this "Fantastic" specimen now worth over 1,000.00

1288. 1915 BRILLIANT WIRE EDGE PROOF! Only 450 struck (second rarest proof).

LIBERTY WALKING HALVES — CHOICE

1289. 1916 Brilliant Bluish Uncirculated, SHARP STRUCK GEM!
1290. 1916 Brilliant slightly golden Uncirculated, SHARP STRUCK. CHOICE.
1291. 1916-D Brilliant Uncirculated, SHARP STRUCK GEM!

1296. 1935-D Brilliant Uncirculated, SHARP STRUCK GEM!
1297. 1935-S Brilliant Uncirculated, SHARP STRUCK GEM!

1298. 1937-1947-P-D-S COMPLETE SET 30 in plastic holder, most Brilliant Uncirculated, a few bluish to golden. All Sharply Struck except "S" mint 1940-41-42-44-45 which are much sharper struck than most, but still not quite as sharp as the others.

1794 SILVER DOLLAR

1299. **1794 EXTREMELY FINE AND SHARPLY STRUCK! SUPERIOR IN STRIKE TO THE ONE IN KREISBERG 9/10/73 SALE!** That coin, while being "Brilliant Uncirculated, choice" had a **"small mint abrasion on third star"**, also **"showing heavy clash marks around centers, together with the characteristic weakness at left on either side, the flattening being directly attributed to the die injuries, and common to this issue. Of only 1758 coined on October 15, 1794, not quite fifty specimens are extant today in all grades, most of these having been melted down for bullion in the early 1800's."**

The specimen herein offered is from **THE EXCESSIVELY RARE EARLY DIE STATE with Left Stars Being Fairly Sharp And Complete! THE EDGE MILLING IS SHARP AND COMPLETE ALL THE WAY AROUND! Even the DATE IS FULL AND SHARP! THE REVERSE EDGE MILLING IS SHARP AND IS VIRTUALLY COMPLETE ALL AROUND** Except For The Tiny Portion Between "States" and "OF". **THE LEGEND IS ENTIRELY SHARP!! Superb lustrous golden bluish patina! THE SHARPEST STRUCK SPECIMEN WE CAN RECALL CATALOGING!**

The demand for "The First Dollar Of The U.S." has been particularly strong the past year resulting in the one in the above Kreisberg sale bringing $51,000.00. We note another Uncirculated specimen being offered in the coming Superior auction of 10/1/73, wherein they expect it to realize **"($75,000.00—UP)".** Surely this remarkable aesthetically appealing specimen worth at least half.

PLATE

1795 TYPE II PROOFLIKE DOLLAR

1300. **1795 B-14, Bust Type, Small Eagle,** variety with bust centered too far left. **GLITTERING GOLDEN BLUE IRIDESCENT PROOFLIKE, WIRE EDGE SHARPLY STRUCK SPECIMEN! The Wire Edge Is Sharp Enough To Cut You! A "Fantastic specimen acquired not too long ago as a "PROOF" at $25,000.00** We prefer the term "Prooflike" or "PRESENTATION PIECE" rather than Proof when applied to these early coins. They did the best they could with what equipment they had, but they did not have the facilities to properly make Proofs as they did later, starting in 1817. Regardless of what you call it, it is certainly **HIGHLY DESIRABLE FOR "TYPE", DATE, OR VARIETY.**

We have no comment to make about the $25,000.00 purchase price except to say we have seen specimens not as desirable priced this year at prices varying to $25,000.00. **There have also been some "Five Figures" auction prices.**

As we go to press, we note on page 10 of Coin World an ad offering a **1795 Small Eagle Ch. AU at $7,950.00 with the comment "A BU recently WHOLSEALED at $21,500.00." This would then make this "PROOF" worth at least $50,000.00.** It is almost impossible to keep up with the rapidly changing values. Some coins that we sold a month ago we would now like to buy back — if it were possible. PLATE

1797 SMALL LETTERS 9X7 STARS $1 — CHOICE "CONDITION-CENSUS" RAREST MAJOR "TYPE" DOLLAR 1794-1803

1301. **1797 B-2, STARS 9X7, SMALL LETTERS, About Extremely Fine with The SHARPEST STRUCK EAGLE WE CAN RECALL SEEING!** The eagle is all most invariably struck weakly; this one is **amazingly sharp!** Only nominal even wear and without any nicks, scratches and other abrasions which seem to plague the few specimens we have seen over the years. Attractive bluish golden patina. Scott states **"Rev. always flatly struck. High R6 (13 to 16 known). Unknown in unc."** Other references estimate either fewer known or perhaps 3 or 4 more known of the **ONLY 342 STRUCK!** The next lowest coinage 1794-1803 is the 1758 struck in 1794! LESS THAN HALF THE AMOUNT KNOWN OF THAT FOR 1794!

OBVIOUSLY, THE RAREST SILVER DOLLAR 1794 THROUGH 1803. THE MOST UNDERVALUED SILVER COIN! We cannot think of another Major Variety in silver of this great rarity valued at such a ridiculous price compared to its rarity. In addition, **this is "CONDITION-CENSUS"** as the top six contain an "About Very Fine" coin (see Superior 10/1/73 description). Easily worth several thousand dollars.

PLATE

1798 15 STARS, SMALL EAGLE DOLLAR "CONDITION-CENSUS"

1302. 1798 B-2a, TYPE 1796 WITH 15 STARS & SMALL EAGLE, Near Uncirculated with lovely blue and gray patina, some original Mint Luster, SHARPLY STRUCK WITH FULL EDGE DENTILATION AROUND BOTH SIDES! VERY RARE VARIETY. Similar condition to the Ostheimer coin in Superior 10/1/73 sale described as "About Uncirculated" and "One of two finest known of this well known variety". Could this be the other specimen referred to? Surely this TOP-CONDITION SPECIMEN worth into the "Mid Four Figures".

PLATE

1799 OVER 98 DOLLAR

1303. 1799 OVER 98, B-1, Heraldic Eagle, Extremely Fine & Sharp, attractive well-struck specimen VER.Y RARE (Rarity 5). Easily worth 1,000.00

1803 DOLLAR UNCIRCULATED

1304. 1803 Large Re-Engraved 3, B-6, **GLITTERING GOLDEN UNCIRCULATED WITH RAISED EDGE AND SHIMMERING LUSTER, STARS COME TO A POINT!** Acquired as **"CONDITION-CENSUS".** In strong demand for "Type". We have seen specimens purporting to be "Uncirculated" priced to $6,000.00. It will be interesting to see what this one brings.

PLATE

1305. 1804 SILVER DOLLAR. **"In all the history of numismatics of the entire world, there is not today and there never has been a single coin which was and is the subject of so much romance, interest, and comment and upon which so muh has been written and so much discussed as the U.S. dollar of 1804."** This comment was made in 1941 by B. Max Mehl in the catalog for the sale of the Dunham collection and which included an 1804 dollar.

In fact, a special book, THE FANTASTIC 1804 DOLLAR, was written by Eric P. Newman and Kenneth E. Bressett with Walter H. Breen and Lynn Glasser being Associates in Research (published 1962 by Whitman).

This particular speciman is The Silver Plated Copper Electrotype **MADE IN THE PHILADELPHIA MINT BY W. E. DU BOIS.** The last appearance of an electrotype 1804 dollar was in the New Netherlands 53rd Auction June, 1959 described:

> **"1804 Silver Dollar. Copper Electrotype Made In The Philadelphia Mint by W. E. Du Bois, from the Mint's plain edged restrike (Class II, now in the Smithsonian).** "Copy" under right claw. Full original sharpness, **Listed as A. W. 26** (Adams Woodin book on U.S. Pattern, Trial, And Experimental Pieces and described there as "UNIQUE"; published 1913. Now replaced by Judd's book on patterns and also described therein). **a copper trial piece** (Adams never examined it); listed as No. 5 by the late B. Max Mehl in his enumeration of 1804 dollars supplementary to his 1927 reprint of Hazeltine's Type Table. **OBTAINED FROM W. E. DU BOIS AT THE MINT, Ca. 1860,** by Dr. Spiers; the Spiers collection was bequeathed to the Society of California Pioneers, and a catalog issued around 1877; the Society exhibited the collection at the San Francisco Mint later, ca. 1906, the collection was broken up, Waldo Newcomer obtaining this piece among many others; Newcomer left it to his son, from whom Mr. Straus obtained it. Mentioned on page 172 of the 18th edition of the Standard Catalogus. THE ONLY ELECTROTYPE WE HAVE EVER SOLD AND THE ONLY ONE WE EVER EXPECT TO. Valuable for its historical interest."

It is mounted in a custom-made plastic holder lettered "UNITED STATES OF AMERICA SILVER DOLLAR 1804". The holder is attached to a leatherette cover lettered "U.S. SILVER DOLLAR 1804". Included is also a Color Photo (nearly double diameter) of the obverse and reverse of the 1804 on one side; the other side printed:

"The 1804 silver dollar is one of the most publicized rarities in the United States coin series. The coin at the left is RAREST AMONG THE RARE: IT IS UNIQUE, THE ONLY SURVIVING SPECIMEN WITH A PLAIN EDGE. (The photograph is slightly larger than actual size; originals are approximately 1½ inches in diameter.) Museum of History and Technology. SMITHSONIAN INSTITUTION."

We agree with New Netherlands: **" only electrotype we have ever sold and the only one we ever expect to."**

The 1959 Guidebook indicates that the then two most recent records for the 1804 Silver Dollar were for the Type 2 (of which several are known): "Idler Specimen sold for $3,125.00 in 1947." "Davis-Hale Specimen sold for $8,000.00 in 1954".

The present Guidebook indicates that the above "Idler Specimen sold for $80,000.00 in 1972". Quite a rise from its previous record of $3,125.00. It was acquired by a dealer who proudly displays it and values it "around $150,000.00". It is the only specimen we know of that might be presently available (if he decides to sell it).

AS A "MINT ISSUED 1804 DOLLAR" WE EXPECT SPIRITED BIDDING "WELL INTO FIVE FIGURES". PLATE

1836 GOBRECHT FLYING EAGLE DOLLAR

1306. 1836 Liberty Seated, NO STARS, FLYING EAGLE in field of 26 stars (states). Generally acknowledged as the "Most Beautiful Silver U.S. Coin." Only 1,000 struck December 31, 1836. **GLITTERING GOLDEN PROOF,** close examination with glass reveals only a very few of the usual hairlines which seem to be characteristic of about 95% of the specimens we have seen in the Forty Years We Have Been Professional Numismatists. Mounted in custom plastic lettered holder. The Hawn coin (Stack's August auction) described as "some hairlines in the field" brought $2,500.0. We believe this popular **"BETTER THAN AVERAGE PROOF"** will now realize closer to $3,000.00. **PLATE.**

VERY RARE "INVERTED REVERSE" 1836 DOLLAR

1307. **1836 STRUCK WITH REVERSE DIE INVERTED. Only 600 struck on March 31, 1837 AFTER PASSAGE OF THE LAW ON JANUARY 18, 1837 AUTHORIZING DOLLARS TO BE STRUCK WITH THIS WEIGHT!** Nearly **TWICE AS RARE.** as the usual 1836 Gobrecht Dollar encountered. **BRILLIANT GEM PROOF! SUPERIOR TO ANY SPECIMEN WE CAN RECALL SEEING IN RECENT YEARS!** Mounted in custom plastic lettered holder. Surely this rarity in this remarkable state of preservation now worth over $5,000.00 **PLATE.**

UNIQUE "UNLISTED" 1836 DOLLAR

1308. 1836 STRUCK WITH REVERSE DIE INVERTED as above but the tiny "C. Gobrecht" on base has been cleverly removed in order to create a new variety **SIMILAR TO 1838 WITHOUT NAME OF DESIGNER an base!** Obviously done a good many years ago as it now has a **LOVELY GLITTERING BLUE AND IRIDESCENT PATINA. PROOF WITH REMARKABLY SHARP FEATHERS ON EAGLE!**

To the best of our knowledge, **THIS SPECIMEN IS UNIQUE!** As stated in the previous lot, a choice untampered specimen of this variety should now be worth over $5,000.00. Whether the creation of this new "variety" detracts or enhances the desirability of this unusual and popular coin must be a matter of personal determination. It could be argued both ways.

1838 DOLLAR HUB TRIAL PIECE

1309. Acquired 4 years ago described **"1838 INCUSED HUB TRIAL of Flying Eagle in plain field (Judd 84), on large copper planchet, envelope marked "Judd plate coin; ex Lenox Lohr Coll.".** There is also a pencilled price of $1,500.00. The regular 1838 Gobrecht dollar is listed in the Guidebook at $3,750.00." Now, 4 years later, the Gobrechts are even more desirable and of course, more valuable. **PLATE.**

"GEM" 1839 GOBRECHT FLYING EAGLE DOLLAR "FINEST KNOWN"?

1310. 1839 No Designer name, 13 obverse stars; Eagle in plain field, Reeded edge. ONLY 300 STRUCK. **GLITTERING BLUE AND IRIDESCENT GEM PROOF! PRISTINE "CONDITION 70"! THE CHOICEST SPECIMEN WE HAVE ENCOUNTERED IN OUR FORTY YEARS AS PROFESSIONAL NUMISMATISTS! A choicer or lovelier specimen could not possibly exist!** If we are a bit over-enthusiastic about this beauty, please bear with us. Attribute it to "collector" in us. Yes, we still have a thrill when we catalog such a highly desirable specimen.

It is difficult to place a value on such a specimen, as it may be a good many years before an equal specimen (if it exists) comes upon the market. **PLATE.**

1839 "MINT ERROR" DOLLAR PROOF
UNIQUE

1311. Acquired a year ago described **"1839 THINNER PLANCHET ON SMALL PORTION OF EDGE, otherwise AN ABSOLUTELY PERFECT PROOF.** Since proofs are carefully made for collectors, the mint closely scrutinizes them so that no errors are sent out. **THIS IS THE ONLY MINT ERROR REGULAR PROOF WHICH WE KNOW OF.** Pedigree goes back to the New Netherlands Coin Co., who also made the same statement. **IN ADDITION, it has an INVERTED REVERSE** (Extremely Rare — many times rarer than normal reverse). **THIS ERROR COIN IS UNIQUE."** The present owner was fortunate in successfully acquiring it at what we believe to be a real "bargain"; only $4,250.00. An outstanding rarity such as this should surely now be worth colser to $10,000.00.

"1846 OVER 44" PROOF DOLLAR
EXCESSIVELY RARE & "FINEST KNOWN"

1312. Lot 1729 of "Empire Collection" (Stack's 11/57) auction described **"1846 The so-called 1846 OVER 44 or re-engraved date. Brilliant iridescent Proof. Considered excessively rare in the Parmalee sale."** It is a lovely specimen indeed, easily qualifying as a "PRISTINE GEM"! Identifiable by microscopic planchet mark on raised edge below "O" in ONE of reverse.

The 18th edition of the Standard Catalogue of U.S. Coins (Wayte Raymond) lists it as **1846 OVER 44.** It is the **ONLY LISTED OVERDATE DOLLAR IN THE SERIES!** Other numismatists (as stated by Stack's) claim it is a re-engraved date. Regardless of what opinion is accepted, we do know it is **EXECSSIVELY RARE! Only 6 or 7 said to be known. ONLY STRUCK IN PROOF.** What few other specimens we have seen in our Forty years as Professional Numismatists, have acquired wear, nicks, abrasions, etcetera in their many years of existence. Perhaps (theoretically) another equal specimen may exist, but **certainly no superior one!**

If this "Fantastic" Rarity of the "Most Popular Series Today" is not worth "Well Into Five Figures", then no dollar is worth what it is bringing today! If the 1893-S dollar is worth the $21,000.00 one brought in Paramount's May, 1973 New York sale, then what is this **MANY TIMES RARER 1846 Over 44** worth? Incidentally, we saw an 1893-S dollar at the Boston A.N.A. convention in August, priced at $35,000.00. It is impossible to keep up with the new records being established almost weekly. The fallacy with these new records is that they are being established (for the most part) on "scarce" or "rare" coins. **Very Rare and Excessively Rare coins are offered so infrequently that most do not have the opportunity to rise to their true value in relation to the lesser rarities.**

1851 "ORIGINAL" HIGH DATE DOLLAR PROOFLIKE "GEM"

1313. **1851 "ORIGINAL" with "High Date"** (not to be confused with the generally offered "Centered Date" Restrike). **BRILLIANT UNCIRCULATED with PROOFLIKE SURFACE BOTH SIDES, SHARP STRUCK WITH WIRE EDGE!** We accept its attribution of "GEM" in spite of the microscopic imperfections visible with a glass. It is so much choicer than the others we have seen over the years that we do not feel this accolade of "GEM" should be withheld. Mounted in lettered plastic holder.

We saw a specimen at the Boston A.N.A. August convention priced $10,000.00. It was not as choice as this remarkable piece. PLATE.

1851 COPPER RESTRIKE PROOF DOLLAR

1314. **1851 RESTRIKE PROOF, trial piece in copper, Judd-132, BLAZING RED FLAWLESS PROOF!** Probably **THE FINEST OF THE ONLY 5 KNOWN!** The restrike silver proof in this condition (about 40 to 50 said to have been struck) would probably now bring over $5,000.00. While this lovely copper specimen is many times rarer, it is not as popular and will most likely bring somewhat less. PLATE

As we go to press, we note on page 5 of Coin World an ad offering a "copper" specimen at $1,900.00. Since the exact condition wasn't stated, we strongly doubt if it compares to this GEM.

1854 PROOF SILVER DOLLAR

1315. **1854 BRILLIANT GEM PROOF! EXTREMELY RARE, PARTICULARLY IN THIS REMARKABLE STATE OF PRESEVATION.** Superior to the specimen offered by a leading West Coast dealer in their August price list at $3,995.00. PLATE.

1857 PROOF SILVER DOLLAR

1316. **1857 GLITTEING BLUE AND IRIDESCENT GEM PROOF! EXQUISITE!** We do not see how a lovelier and more desirable specimen could exist! The true rarity of this date in proof has been masked by the occasional offering of a prooflike 1857 as a Proof. Of course the difference is readily apparent when the two are compared. A notation on the envelope has "Sept. 30, 1970 Coin World Bowers-Ruddy $1350". We checked and sure enough, "Bowers and Ruddy Galleries" had a page ad (page 19) offering a proof at $1,350.00. Surely now, 3 years later, this exqisite specimen worth at least double.

1317. **1859-0 Brilliant Uncirculated, SHARPLY STRUCK with CONSIDERABLE PROOFLIKE SURFACE. Far superior to most specimens seen with very few of the usual "bag-marks".**

LIBERTY HEAD "MORGAN" DOLLARS

1318. 1878 8 Feathers, 1878 7 Over 8, 1878-CC, Brilliant unc. Prooflike, Choice.
1319. 1879-O, 80-O-S, 86(2) Brilliant Uncirculated, Choice.
1320. 1880-CC Third reverse, Virtually Uncirculated, has been cleaned. 21-D same.
1321. 1922-P-D-S, 23, 25 Brilliant Uncirculated. Choice.
1322. 1880-O, 81-S, 84-O Brilliant Uncirculated, Choice.
1323. 1881 BRILLIANT GOLDEN PROOF, CHOICE.
1324. 1882 BRILLIANT GEM PROOF! PRISTINE!
1325. 1884 BRILLIANT GOLDEN GEM PROOF! PRISTINE!
1326. 1885 BRILLIANT GOLDEN GEM PROOF! PRISTINE!
1327. 1886. BRILLIANT SLIGHTLY GOLDEN PROOF, CHOICE. Tiny carbon spot.
1328. 1890 BRILLIANT GOLDEN PROOF. CHOICE.
1329. 1891 BRILLIANT GEM PROOF. PRISTINE!
1330. 1892 BRILLIANT GEM PROOF although curl over ear not fully struck.

1892-S CHOICE UNCIRCULATED DOLLAR

1331. **1892-S BRILLIANT UNCIRCULATED, SHARPLY STRUCK WITH FULL SLIGHTLY GOLDEN LUSTER! EXCESSIVELY RARE IN THIS CHOICE STRIKE AND STATE OF PRESERVATION!** The coin in Paramouunt's May New York sale brought $12,000.00. A dealer offered to sell us a specimen at the Boston A.N.A. convention in August at $15,000.00. It was a nice specimen; about the equal of this one. It will be interesting to see what the "market" will be for this popular rarity by the time of this sale.

1893-S CHOICE UNCIRCULATED DOLLAR

1332. **1893-S BRILLIANT UNCIRCULATED, SHARPLY STRUCK WITH FULL SLIGHTLY GOLDEN LUSTER. SOME PROOFLIKE SURFACE! A REMARKABLE CHOICE SPECIMEN OF THE "RAREST MORGAN DOLLAR."** The one in Paramount's May sale realized $21,000.00. We saw a specimen at the Boston A.N.A. convention in August priced $35,000.00. The owner called it "MS-70". It is difficult to remember how this choice specimen compared with that one at Boston. Possibly a "more perfect" specimen could exist but until someone shows us an "absolutely perfect" one, we feel this coin is about "As Choice A Specimen As Can Be Obtained".

1895 CHOICE PROOF DOLLAR

1333. **1895 BRILLIANT GOLDEN PROOF!** We were about to call it a "GEM" but a glass reveals faint evidence of cleaning some time ago, as it has now acquired a lovely light golden patina. A "proof only" date in strong demand. The Guidebook value of $6,000.00 has already been exceeded. Present value?

1895-S CHOICE UNCIRCULATED DOLLAR

1334. **1895-S BRILLIANT GOLDEN UNCIRCULATED, SHARP STRUCK WITH PROOFLIKE SURFACE!** Only the few "bag marks" keeps us from calling it a "GEM." Really Rare so choice. Records into the "Mid Four Figures". The Paramount coin sold (May, N.Y.) at $4,500.00.

LIBERTY HEAD "MORGAN" DOLLARS

1335. 1896 Glittering Iridescent PROOF, "GEM" except for faint slide-mark on cheek.

1336. 1896-S Brilliant Uncirculated, CHOICE! Far superior to most seen. RARE. The Paramount N. Y. May sale coin brought $600; present value?

1337. 1897 BRILLIANT IRIDESCENT GEM PROOF! PRISTINE!

1338. 1903-S LOVELY "FROSTY" IRIDESCENT SHARPLY STRUCK UNCIRCULATED GEM! Highly desirable. The Paramount May N.Y. sale coin brought $1,900; at Boston we saw one not quite the equal of this gem priced $3,000.00. Present value? PLATE.

1339. 1904 BRILLIANT GEM PROOF. Only 650 struck.

1340. 1904-O Brilliant Prooflike Sharp Struck Gem; 1884-O Brilliant unc. Gem.

1341. 1904-S Brilliant Uncirculated, SHARP STRUCK PROOFLIKE GEM! Paramount May N.Y. one brought $500; we have seen somewhat higher prices since.

1879-O PROOF DOLLAR - SECOND KNOWN

1342. **1879-O BRILLIANT GEM PROOF WITH SLIGHTLY GOLDEN PERIPHERY TONING! A fantastic specimen which carries its own credentials. The cameo sharpness of hair and eagle's breast feathers, completely polished surface, and raised edge completely around both sides (similar to Philadelphia proofs) immediately establishes it as being struck at the Philadelphia Mint intentially as a proof.**

Only 12 proofs were struck to commemorate the reopening of the New Orleans Mint on February 20, 1879. The first known specimen was sold May 4, 1973 at Central States auction by Rarcoa. It had some detractions such as minute rim marks, etc. It brought $7,500.00 The other branch-mint proof sold recently enough to have any meaning was the 1893-CC (supposedly 12 struck to commemorate the closing of the CC mint) auctioned by Rarcoa at Jan. 1973 F.U.N. convention. It was in superior condition to the 1879-O sold in May and brought $18,000.00 after spirited bidding. Since then, after diligent searching, 3 more 1893-CC proofs have been discovered but only this one additional 1879-O!

A letter of authenticity by Walter Breen accompanies this remarkable specimen and goes into great detail.

We believe the superior condition of this 1879-O (compared to the other) will elicit bidding comparable to the 1893-CC or even surpass it since it is rarer than the 1893-CC.

PLATE

1921 PROOF LIBERTY HEAD DOLLAR

1343. **BRILLIANT SLIGHTLY GOLDEN PROOF WITH RAISED EDGE BOTH SIDES!** Attributed as such by Walter Breen. A certificate of authenticity accompanies it which includes "This piece is made from the same dies which were used for a couple dozen Proofs, showing the die scratch from upper left corner of second U in UNUM to border. The Proof in ANS is from this die. Unfortunately, like the majority of known specimens from these dies, this piece was drastically cleaned at some time in its history, obscuring its original Proof surface, etc. Unimpaired coins have sold in middle four figure prices, etc." Signed "FIRST COINVESTORS INC. Walter Breen, Vice President".

The Guidebook indicates its great rarity by not pricing it. The three-year old Scott Catalogue lists it "R7. 5,500.00".

TRADE DOLLARS

1344. 1873 GLITTERING BLUISH WIRE EDGE PROOF. Choicer than most. SCARCE.

1345. 1873 Glittering golden Uncirculated, SHARP STRUCK, PROOFLIKE. Scarce.

1346. 1877-S Brilliant golden Uncirculated GEM! SCARCE THUS.

1347. 1878 BRILLIANT WIRE EDGE SHARPLY STRUCK PROOF, CHOICE! A minute carbon fleck keeps us from calling it a "GEM". SCARCE DATE.

1348. 1876 Counterstamped with over a dozen chop-marks attesting to its full weight (and its intended use in the Orient). Interesting.

1349. 1877 "BOX TALER", hollowed out and hinged to contain miniature photo. Said to have been sold at 1876 CENTENNIAL EXPOSITION. Interesting.

PATTERN SILVER DOLLARS

1350. 1870, J-1017, Longacre's (LONGACRE below base) Indian Princess obverse combined with regular die reverse, **lovely GLITTERING RED AND BLUISH COPPER PROOF WITH WIRE EDGE,** a pinpoint edge nick prevents us from using superlatives. **RARITY 7 (only 4 to 12 known). PLATE.**

1351. 1871 J-1146, Similar but LONGACRE omitted, struck in silver, **BRILLIANT SLIGHTLY GOLDEN WIRE EDGE GEM PROOF! RARITY 7 (only 4 to 12 known).** Deserving a "run-away" price in this remarkable state of preservation. PLATE.

1352. 1878, J-1554, Barber's design of Liberty Head and Erect Eagle, silver, **BRILLIANT LIGHT GOLDEN PROOF,** while sharper struck than some specimens seen over the years, the center curl is not fully struck up. We note a specimen in Stack's March sale brought $525; present value?

COMMEMORATIVE HALF DOLLARS - HAWAIIAN, ETC.

1353. 1928 HAWAIIAN, Brilliant Uncirculated but close inspection reveals it has been "dipped" (cleaned). RARE. Catalogs unc. $1,000.00. This worth?

Consignment California

CHOICE 1793 HALF CENT

1356. 1793 EXTREMELY FINE & SHARP, only nominal wear on this well-centered, Sharply Struck specimen, attractive chocolate brown color, slight edge dinge visible when closely inspected. Popular "ONE YEAR ONLY" TYPE. Should exceed 2,500.00

ATTRACTIVE 1793 LARGE CENT

1357. 1793 S-8, WREATH, Vine Bars edge, Very Fine & Sharp, attractive brown and chocolate, remarkably free from the minor abrasions which seem to plague most specimens seen. Well worth upwards of 1,500.00

3¢ NICKEL & 3¢ SILVER PROOFS

1358. 3¢ NICKEL 1879, 1883 Bluish golden PROOFS, some minute carbon spots.
1359. 3¢ SILVER 1865 Bluish Wire Edge PROOF. Scarce.

MINT STATE 1800 LIBEKTY HALF DIME

1360. **1880 LIBEKTY, Brilliant Bluish Golden UNCIRCULATED, "NEEDLE-SHARP" HAIR with only silght flat strike below hair knot and at extreme bottom of bust just above date;** the die bulge at top of shield and sinking at right wing tip are less pronounced than generally seen. **RARE EARLIER DIE STATE, MORE SHARPLY STRUCK THAN THE HAWN COIN! FULL MINT LUSTER!** The Hawn coin (Stack's August auction) brought $2,100; surely this remarkable specimen now worth closer to $3,000.00.

1840 & 1845 HALF DIMES

1361. 1840 NO DRAPERY, Brilliant & Golden UNCIRCULATED, Sharp Struck GEM!
1362. 1845 Drapery, faintly recut 5, Uncirculated with bluish golden luster.

1882 BLIND MAN'S NICKEL

1363. From a 1963 sale described:

"1882 REGULAR TYPE BUT FIVE EQUALLY SPACED BARS ON THE EDGE" so a blind man could tell what coin it was". A BEAUTIFUL BRILLIANT PROOF. ONLY 2 OR 3 STRUCK (Judd R.8) A MOST INTERESTING AND UNUSUAL COIN. Certainly one with **"MORE OF A STORY"** and **RARER** than the much-publicized **1913 LIBERTY HEAD NICKEL** of which 5 are known and which is valued at $50,000.00. Dr. Judd assigns a nominal value of only $2,000.00 to this Great Rarity in his book published in 1959.

SINCE IT DOESN'T COME UP FOR SALE, ANY VALUE ASSIGNED TO IT WOULD BE GUESSWORK. It should belong in the class of coins such as the **1866 NO MOTTO 25¢ which catalogs at $24,500.00 or the 1913 LIBERTY HEAD NICKEL valued at $50,000.00.** You can be sure it will be a **"SHOW-STOPPER"** when properly displayed at any coin show or convention!"

The GREAT RARITY OF THIS "COIN WITH A STORY" HAS PREVENTED IT FROM COMING UPON THE MARKET IN ORDER TO ESTABLISH NEW RECORDS OVER THE YEARS. For instance, Judd changed its theorettical value from $2,000.00 in 1959 to $2,500.00 in 1962 with the Second Edition.

SINCE THEN, IT HASN'T BEEN CHANGED! We note the 1913 LIBERTY HEAD NICKEL was purchased by a dealer in 1972 for $100,000.00, and presumably its present selling price is "Substantially More". **We expect this RARER "BLIND MAN'S NICKEL—a "COIN WITH A STORY"— TO bring well into "Five Figures"' PLATE.**

1918 OVER 17-D NICKEL

1364. **1918-D, 8 OVER 7, acquired as "EF/VF" at $950.00. We believe this grading is a trifle enthusnastic although it is choicer than most seen. RARE. The strong increase in demand for choice specimens of this rarity could now send bidding over its cost.**

CHOICE DIMES & 1919-S QUARTER

1365. 1841 With Drapery, Uncirculated golden, choice.
1366. 1897-0 Glittering golden Uncirculated, choicer than most. SCARCE.
1367. 1942, 2 OVER 1, very close to Uncirculated, only slight friction, almost full luster. SCARCE. Cat. unc. 650.00.
1368. QUARTER 1919-S Uncirculated golden, Sharper Struck than most. Cat. 350.00

1914 CHOICE PROOF SET — RAREST DATE

1369. 1914 PROOF SET 5 in plastic, 50¢ Glittering Golden, 25¢ Brilliant, 10¢ Brilliant, 5¢ Golden Matte, 1¢ Red Iridescent Matte. **UNUSUALLY CHOICE! ONLY 380 STRUCK!** Of those still in existence, very few can equal this choice state of preservation. Individually, they would probably sell at $2,250 to $2,500 in this choice state or preservation—provided they were available.

1859 CHOICEST NON-PROOF SILVER DOLLAR SEEN

1370 **$1 1859 GLITTERING BLUE & IRIDESCENT UNCIRCULATED, SHARP STRUCK WITH PRACTICALLY COMPLETE PROOF SURFACE BOTH SIDES, GEM! PRISTINE. A LOVELIER SPECIMEN COULD NOT EXIST!** Careful examination of the unpolished surface showing throught the obverse and reverse shields establishes beyond a doubt that this is not a proof. **INCOMPARABLE!** Of course, in this condition, it is many time rarer than than the proof.

1876 CENTENNIAL DOLLAR PROOF

1371. **1876 "CENTENNIAL" DOLLAR, BRILLIANT IRIDESCENT SHARP STRUCK PROOF WITH RAISED EDGE BOTH SIDES!** A "GEM" except for the light line in field which closely resembles a die break. Authorized by Congrbess for **"CENTENNIAL EXPOSITION".** Popular. **RARE SO CHOICE.**

1939 CANADA PERFECT PROOF DOLLAR

1372. **1939 PERFECT BRILLIANT PROOF SILVER DOLLAR WITH EXQUISITE LIGHT GOLDEN BLUISH PERIPHERY! A lovlievr specimen could not exist. Acquired from Wayte Raymond shortly after it was struck. PLATE.**

1373. From a sale two years ago described:

"1792 LIBERTY PARENT OF SCIENCE & INDUSTRY" around bust, reverse **"UNIITED STATES OF AMERICA 1/100"** around wreath with **"ONE CENT".** Edge Lettered **"TO BE ESTEEMED" * BE USEFUL* ".** The bust is **Extremely Fine** with date and obverse legend being **very close to Uncirculated** (only barest friction), pinpoint edge nick. The wreath is **Extremely Fine** with some evident die failure at center resulting in ONE CENT, not being fully struck up, the outer legend and fraction are particularly strong with only barest friction. **A TOP GRADE SPECIMEN OF ONE OF THE MOST DESIRABLE AND RAREST OF ALL U.S. COINS!**

There is a full page ad accompanying this specimen **(April 27, 1962 World page 11** describing this coin as **"Boldly struck on the obverse, and reverse is well struck with the exception of N of ONE, however it is an Extremely Fine to About Uncirculated specimen. Choice chocolate toning. Truly a great gem at only $10,000.00".)**

It is listed on page 58 of Guidebook under **"FIRST UNITED STATES MINT ISSUES"** but it is not priced due to its great rarity. The Scott's Comprehensive Catalogus And Encyclopedia of U.S. Coins has it on page 194 as **"3-B, HIGH R7. (4 TO 6 KNOWN) WITH A VALUE OF $15,000.00 (but does not give condition).** We feel this choice specimen worth $20,000.00."

The market for Early American coins, particularly the **RARE** and **CHOICE** has changed markedly the past two years with recent advances being so great that they should be termed **"Explosive"** in nature. **Many have recently brought 3 and 4 times the 3 years-old Scott Catalogue values.** As the **FIRST UNITED STATES CENT** (as well as a "Pattern" - Listed in Judd). **IT IS EXCESSIVELY RARE AND IN THE STRONGEST POSSIBLE DEMAND!** In addition, **IT IS "TOP-GRADE".**

We believe it to now be worth a minimum of $50,000.00 and would not be surprised to see it bring closer to $100,000.00.

PLATE

1792 HALF DISME

1374. **1792 HALF DISME,** bust Liberty Head left (some claim it to be bust of Martha Washington) **LIB. PAR. OF SCIENCE & INDUSTRY 1792** around bust; rev. Flying eagle, **UNI. STATES OF AMERICA, HALF DISME,** silver. Lovely "TOP-GRADE" specimen. The obverse is close to **Uncirculated,** having only slight friction. The reverse has a shade more friction, qualifying it as a Sharp Extremely Fine. Most specimens seen over the years have been poor, fair, good or even holed or defective. Increasingly difficult to obtain so choice. **STRUCK FROM SILVERPLATE FURNISHED BY GEORGE WASHINGTON.** The coins were then given to Washington, who gave them away to friends. Washington mentions them in his Message to Congress in November of 1792.

Breen in his "UNITED STATES HALF DIMES: A SUPPLEMENT" states on page one:

> **"Of the most extreme rarity in Mint State. PROBABLY THE MOST DESIRABLE AMERICAN SMALL SILVER COIN.** Snowden (1860), Newlin (1883) and Valentine agreed in calling this a regular issue, etc."

It is difficult to know what such a choice specimen of the **"Most Desirable American Small Silver Coin"** might bring in this strong market. Perhaps close to, or even over "Five Figures". PLATE

Friedberg did not know of the existence of this signature combination on this issue when he first published his book) NAPIER & McCLUNG, Clear signatures, almost fine. Jan. 6, 1912 on obverse is the day New Mexico became a state, therefore we must consider this a state note which in this issue, is as rare as a territorial, if not actually rarer. This issue is acknowledged as being somewhat rarer than the 1882-1908 issue, therefore it should fetch very close to 1,750.00

ERROR "$30" NOTE, $10/$20 DOUBLE-DENOMINATION

1466. Described in the 1959 A.N.A. Convention sale as **"$10 Obverse and $20 Reverse - SERIES 1882 National Bank Note-1882-1908 On Rev.-Fr. No. 545 & No. 555-FIRST NATIONAL BANK OF NORTHPORT, N.Y. - In Addition, THE NEXT NOTES FROM THIS SHEET $10 OBV. and REV. Accompanies This Note - BOTH NOTES HAVE INVERTED REVERSES WHICH SHOWS HOW THIS ERROR CAME ABOUT - Evidently a Sheet of 3 $10 and One $20 (the way these came printed) Was Picked Up for Inspection And Then Accidentally Turned Around When Replacing It On The Pile Before The Other Side Was Printed - Therefore, One $10 OBV./$20 REV., One $20 OBV./$10 REV. and 2 $10 NOTES WITH INVERTED REVERSES WOULD BE PRINTED - A UNIQUE PAIR-2 pcs. Fine-V.F. $4,000.00". The owner paid $3,000 at that sale; it was resold in 1969 for $4,650.00. This Rarity could now realize** **7,500.00**

$50 FIRST CHARTER UTAH TERRITORY UNIQUE?

1487. $50 1ST CHARTER, SALT LAKE CITY, Deseret National bank (2059) F445, About Very Fine. $50 1st charters are **VERY RARE** and greatly undervalued; any **Utah Territory** is **Rare.** This then is **EXCEEDINGLY RARE and Possibly UNIQUE!** This is attested to by the fact that Friedberg doesn't even try to value this note in $20 denomination; much less in $50. notes. Since $50 notes are many times rarer than $20's, and the highest $20 valuation is $1,200, this then could be worth 10,000.00

PLATE

PROOF $1 GOLD, 1849 OPEN WREATH

1497. $1 **1849 OPEN WREATH,** certificate from Walter Breen dated 1962 states: **"The accompanying 1849 gold dollar of Type I (small head, without L under truncation) is a PROOF and ONE OF PROBABLY NOT MORE THAN SIX SPECIMENS MADE. The die state is identical to that on the proof in the Smithsonian Institution and earlier than that found on the regular uncirculated strikes.** The recutting on the stars below head is distinctive of this obverse die, but it quickly fades out on the business strikes.

There were 1,000 regular business strikes from the Type I dies on May 8, 1849. The dies had been completed on May 7 and the first proof sent sent to the Secretary of the Treasury (W. M. Meredith) for his approval, which was promptly forthcoming — indeed with a measure of exasperation at the long delay resulting from Longacre's slowness as a die-cutter. On the same May 7 other proofs were made and the following individuals got them:

1. **W. M. Meredith,** Secretay of Treasury, above mentioned. Later to S. Nagy?
2. **W. E. DuBois,** for placeemnt in the Mint Cabinet Collection of Coins. Now in the Smithsonian.
3. **John C. Calhoun.** Whereabouts of the Calhoun specimen, as of Meredith-Nagy coin, now unknown.
4. **5. These were retained by J. B. Longacre and were in his estate (1870).** They have not been located. Possibly the present coin is one of them?
6. **The present coin, found in England** in a leather bag with several other gold pieces, with which it had been kept since the mid nineteenth century; subsequently bought by a California dealer, thence to the writer."

BRILLIANT PROOF but close inspection with glass reveals faint evidence of it having beep kept in the bag with other coins.

Easily now a "Five-Figure" coin.

GOLD DOLLARS

1498. 1849 OPEN WREATH, Type 1: Small Head WITHOUT "L" (Longacre) on truncation of bust (similar reason as for 1864 1¢ without & with "L") Extremely Fine. ONLY 1,000 STRUCK! Listed in Scott as a MAJOR VARIETY. THE SECOND SMALLEST COINAGE FROM THE PHILADELPHIA MINT being exceeded only by 1875! Rarity 5.

1499. 1849 OPEN WREATH, Large Head, uncirculated with some patina.

1500. 1849 CLOSED WREATH, recut date variety, near Uncirculated.

1850-C $1 GOLD "GEM"

1501. 1850-C BRILLIANT UNCIRCULATED, SHARPLY STRUCK PROOFLIKE, WIRE EDGE GEM! So choice it was acquired as "FINEST KNOWN" about a year ago at $2,000; present values for this rarity could now be double.

1502. 1851 Brilliant Uncirculated, SHARP STRUCK WITH WIRE EDGE.

1851-C $1 GOLD "CHOICE"

1503. 1851-C Brilliant Uncirculated, SHARPLY STRUCK, FULL LUSTER! The few "bag-marks" keep us from calling it a "GEM", even though it is far superior to most seen. Really rare so choice. Probably a "Four Figure" coin today.

1851-D $1 GOLD "GEM"

1504. 1851-D BRILLIANT UNCIRCULATED, SHARPLY STRUCK PROOFLIKE, WIRE EDGE GEM! We do not see how a choicer specimen could exist. Acquired about a year ago as "FINEST KNOWN" at $1,500; present value could now be double.

1505. 1852 Brilliant Uncirculated, Sharply Struck, choicer than most.

1506. 1852 Fine, 1854 Type I (2) Extremely Fine, lot 3 coins.
1507. 1852 Fine, 54 Type I very fine, 56 ver yfine, 62 fine (flat spot in reeding).
1508. 1853 Brilliant Uncirculated, Sharply Struck, Full Luster!
1509. 1853-O Brilliant Uncirculated, SHARP STRUCK GEM! Prooflike.
1510. 1854 Type I, Brilliant Uncirculated, Sharply Struck, Full Luster!

1854 TYPE II $1 GOLD "CHOICE"

1511. 1854 TYPE II, BRILLIANT UNCIRCULATED, SHARPLY STRUCK, FULL LUSTER! The date is remarkably sharp and full! VERY RARE SO CHOICE. In strong demand for "type" but particularly difficult to find sharply struck — the reason the design was changed after only being used for 1½ years. We note the Paramount price list (July) had one at $2,950; we saw one at Boston A.N.A. (August) at $3,500.00. PLATE. As we go to press, our attention was called to reecnt ad at 3,950.00

1855 TYPE II $1 GOLD "CHOICE"

1512. 1855 BRILLIANT ORANGE UNCIRCULATED, RARE SHARP STRUCK DATE! Particularly difficult to obtain thus! The Paramount July price list had one at $3,350.00. We did not see a choice one at Boston A.N.A. Rarer even than the 1854! Probably now worth 4,500.00.

1855-O TYPE II $1 GOLD "CHOICE"

1513. 1855-O Virtually Uncirculated with almost complete luster, WIRE EDGE BOTH SIDES which leads us to believe that what appears to be slight friction on the hair strands is 95% due to the typical striking with hair strands not full. Unusually sharp strike with "8" complete but not fully struck up! RARE THIS SHARPLY STRUCK as nearly all come with weak (part not visible) struck "8" with many showing only a trace of the "8". A highly acceptable specimen of one of the rarest gold dollars to find in choice condition. The Gilhousen E. F. coin (Superior L.A. 2/73) brought $1,210; surely this MUCH CHOICER SPECIMEN now worth about $2,000.00.

1514. 1856 TYPE III, slant 5, virtually Uncirculated, only barest friction, luster.
1515. 1856 Upright 5, Extremely Fine, slightly bent. Much scarcer than above.
1516. 1858-S Brilliant Uncirculated, faint rub in field. Rare so choice. LOW COINAGE.
1517. 1859 Uncirculated with orange patina, slightly porous planchet.
1518. 1860-S Extremely Fine in sharpness but close examination reveals "tooling" in fields. **LOW COINAGE.**
1519. 1868 Near Uncirculated (polished to resemble a proof). Gilhousen A.U. coin brought $290 in February; probably now worth closer to 400.00
1520. 1869 Brilliant Uncirculated, SHARPLY STRUCK, WIRE EDGE, usual "bag-marks."
1521. 1873 Open 3, BRILLIANT UNCIRCULATED, SHARP STRUCK, PROOFLIKE BOTH SIDES!
1522. 1874 Brilliant Uncirculated, WIRE EDGE GEM!
1523. 1876 Brilliant Uncirculated, WIRE EDGE, PROOFLIKE, LOW COINAGE.
1524. 1879 BRILLIANT PROOFLIKE WIRE EDGE GEM! LOW COINAGE!

1526. 1881 BRILLIANT UNCIRCULATED WIRE EDGE GEM! Low Coinage.
1527. 1882 BRILLIANT PROOFLIKE WIRE EDGE GEM! LOW COINAGE.
1528. 1883 BRILLIANT PROOFLIKE WIRE EDGE GEM! Closely resembles a proof.
1529. 1886 OVER "5" (or recut 6 - both descripitons for this variety have been used over the years). PROOFLIKE WITH WIRE EDGE! Closely resembles a proof.
1530. 1887 BRILLIANT UNCIRCULATED WIRE EDGE GEM! Low Coinage.
1531. 1888 BRILLIANT UNCIRCULATED WIRE EDGE GEM!
1532. 1889 BRILLIANT UNCIRCULATED WIRE EDGE GEM! Last year
1533. 1889 Another BRILLIANT UNCIRCULATED WIRE EDGE GEM!

$2½ GOLD

1534. **1804 14 Stars reverse, Extremely Fine. SCARCE. The V.F. Gilhousen coin (Superior L.A. 2/73) brought $1,500; Surely this better specimen now worth well over $2,000.00.**

1535. **1836 UNCIRCULATED, SHARPLY STRUCK! Close inspection with glass reveals a few faint "bag-marks". FAR SUPERIOR TO MOST "UNCIRCULATED" SPECIMENS OFFERED! Popular "type". Inferior specimens have sold over $1,000.00.**

1536. 1837 Fine to Very Fine obverse; Very Fine reverse. Low coinage.

1537. 1838 Virtually Uncirculated (only barest friction) obverse, Sharp E. F. rev. **Low Coinage.** The Gilhousen A.U. coin (Superior 2/73) brought $600; present value?

$2½ 1839-C UNCIRCULATED

1538. **1839-C Recut 39, mint mark above date, UNCIRCULATED, WIRE EDGE AROUND BOTH SIDES. Tiny bag mark on cheek. VERY RARE IN THIS CHOICE STATE OF PRESERVATION. The Gilhousen A. U. coin (Superior 2/73) brought $790; surely this MUCH CHOICER SPECIMEN now worth substantially more.**

1539. **1839-D Mint mark above date, Extremely Fine obverse; reverse closer to Very Fine. The E.F. Gilhousen coin brought $520 in February; this popular First Year Dahlonega mint coin probably now worth over 750.00**

$2½ 1840-C UNCIRCULATED

1540. **1840-C UNCIRCULATED, SHARPLY STRUCK! RARE SO CHOICE. NOW EASILY WORTH OVER $1,000.00.**

1541. **1841-C Virtually Uncirculated, only barest friction, SHARP STRUCK, WIRE EDGE. RARE.**

1542. 1842-O Nice Sharp Strike with RAISED BORDERS BOTH SIDES, **borderline Uncirculated** (only faint rubbing keeps it from being fully uncirculated.) Low coinage. Breen in his monograph "Varieties Of U.S. Quarter Eagles" states **"Still unknown in mint state".**

1543. **1843-C Large Date, Recut "C", virtually Uncirculated, only slight friction, Sharp Struck.**

1544. **1843-D Virtually Uncirculated, only slight friction. SCARCE.**

1545. 1843-O Small date, very fine (light line in field).

1546. **1844-D Near Uncirculated with luster. The Gilhousen unc. coin 2/73 brought $1125; this worth proportionately.**

1547. 1845 Extremely Fine & Sharp, traces of luster.

1548. 1845-D Extremely fine. Low Coinage.

1549. **1847-D Virtually Uncirculated, only barest friction, Much Luster, SHARP STRUCK! LOW COINAGE.**

1550. 1847-O Very Fine. New Orleans gold increasing in demand.

1551. **1848-C BRILLIANT UNCIRCULATED, SHARP STRUCK except on eagle's head and neck, caused by being struck on slightly buckled planchet. RARE SO CHOICE.**

1552. 1849-D, Either an Overdate or Recut date, Virtually Uncirculated, Only barest friction, considerable luster. RARE.

1553. **1850-C Uncirculated, usual "bag marks" visible when closely viewed with glass. RARE.**

1554. **1850-D Virtually Uncirculated, only barest friction, almost complete luster. RARE.**

1555. 1851 Near Uncirculated, Sharp, much luster.

1556. **1851-C Virtually Uncirculated, only barest friction, faint hairlines visible when viewed with glass. RARE.**

1557. **1851-D Near Uncirculated with luster. RARE.**

1558. 1851, 53 (Polished), 54 about very fine average.

1559. **1852 BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE. Rare**

1560. **1852-D Extremely Fine & Sharp with some luster. Breen states "VERY RARE". Porbably now worth over $1,000.00.**

1561. 1853 Extremely Fine.
1562. 1854 Uncirculated, choicer than most.
1563. 1854-C Extremely Fine, as Breen states in "Varieties of U.S. Quarter Eagles", "Always flatly struck; in mint parlance, the designs did not "come up" fully. VERY RARE." Seldom offered above fine to very fine.
1564. 1856 Extremely Fine.
1565. 1857 BRILLIANT UNCIRCULATED, SHARPLY STRUCK, WIRE EDGE GEM!

$2½ 1857-D UNCIRCULATED

1566. Lot 174 of Wolfson sale (Stack's 10/62) described **"BRILLIANT UNCIRCULATED, SHARPLY STRUCK. RARE AS ONLY 2,364 WERE COINED."** Scott states **"Very Rare In Strictly Unc.".** Breen says **"TWO MINT STATE SPECIMENS OF IT MIRACULOUSLY SURVIVE"** in his monograph. We haven't seen the other specimen but **WE CANNOT SEE HOW A CHOICER SPECIMEN THAN THIS OUTSTANDING GEM COULD EXIST!**

It has been over a decade since the outstanding Wolfson collection has been dispersed. Who knows how many more years will again elapse before this "Fantastic" specimen reappears on the market. It is difficult to know what a rarity in this remarkable state of preservation might bring on today's market but we believe we are safe in predicting "Mid Four Figures"

1567. 1858-C UNCIRCULATED WITH YELLOW PATINA, THE SHARPEST STRUCK SPECIMEN WE CAN RECALL SEEING! Close inspection reveals tiny die chip near eagle — as on the few specimens we have seen over the years. The Gilhousen v.f. coin was called "Very Rare Date." Scott states "EXTREMELY RARE IN UNC." Easily worth "Well Into Four Figures".

$2½ 1859-D UNCIRCULATED

1568. 1859-D UNCIRCULATED WITH ORANGE PATINA, interesting tiny break at edge. **ONLY 2,244 STRUCK! ONE OF THE SMALLEST COINAGES OF THE ENTIRE QUARTER EAGLE SERIES! EXCESSIVELY RARE IN THIS CHOICE CHOICE STATE OF PRESERVATION!** Should bring a few thousand dollars.

1569. 1860-C Virtually Uncirculated, only barest frfiction. THE SHARPEST STRUCK SPECIMEN WE CAN RECALL SEEING! Both Breen & Scott state "Always weakly struck". LOW COINAGE. The 5th lowest coinage $2½ Charlotte Mint. We would not be surprised to see it bring around "Four Figures". PLATE.

1570. 1860-S Very close to Uncirculated with only slight friction, pleasing orange patina. Sharper Struck than generally seen! Scott states **"Excessively Rare In Unc."** and does not value it above very fine. The Gilhousen coin was very fine; they did however have an 1856-S(71,120 struck compared to only 35,600 struck of 1860-S) in "Almost Uncirculated" which realized $625 after spirited bidding. We note Paramount's July price list has an uncc. 1856-S at $950.00. It will be interesting to see what this **MUCH RARER 1856-S** now brings.

1571. 1861 Very Fine.
1572. 1865-S Very good and sharp.
1573. 1873 Open 3, Extremely Fine & Sharp (lightly polished).
1574. 1878 Virtually Uncirculated, only barest friction.
1575. 1878-S Extremely Fine.
1576. 1879 Brilliant Orange Uncirculated, SHARP STRUCK!
1577. 1890 Brilliant Uncirculated, SHARPLY STRUCK, tiny "bag-mark" rev.. field. SCARCE.
1578. 1893 BRILLIANT PROOFLIKE SHARP STRUCK GEM! PRISTINE Envelope has "6/51 $10 Hollinbeck Auction". Times sure have changed.

$2½ 1895 PERFECT PROOF

1579. **1895 CAMEO-SHARP, PERFECT BRILLIANT PRISTINE PROOF!** ONLY 119 STRUCK 78 YEARS AGO. **An equal speciment may exist but certainly no superiar one!**

1580. 1896 Brilliant Uncirculated, SHARP STRUCK GEM! Low coinage.

$2½ 1848 "CAL.", 1848-P-C-D CHOICE SET

1601. **1848 "CAL." over eagle, Extremely Fine & Sharp (appears to be faint rub spot in field when examined with glass). Acquired as "FIRST UNITED STATES COMMEMORATIVE." A valid claim since it was struck from gold sent by the Military Governor of California to the Mint to Commemorate The Discovery of Gold in California, in plastic holder for the four coins. Quite popular with new records being set for this rarity.**

$2½ 1848 PROOFLIKE GEM

1602. **1848 REGULAR DIES, BRILLIANT UNCIRCULATED, SHARP STRUCK WITH WIRE EDGE, PROOFLIKE SURFACE, GEM! RARE DATE BUT EXCESSIVELY RARE IN THIS REMARKABLE CONDITION! Well worth several times the** the Guidebook of only $1,200; **surely this highly desirable specimen worth in the "Mid Four Figures".**

1603. **1848-C UNCIRCULATED, SHARP STRUCK,** but close examination with glass reveals faint rub in field. **RARE SO CHOICE!**

1604. **1848-D Virtually Uncirculated, only barest friction, SHARP STRUCK!**

$3 GOLD PIECES

The true rarity of many is being recognized with new records being set. The mintage of some is a mere few hundred, with many in the law thousands. Excellent potential for future rise in values.

$3 1854 GEM—ONLY YEAR "TYPE"

1605. 1854 BRILLIANT UNCIRCULATED, WIRE EDGE GEM! In demand for "TYPE" as it is the Only Year with tiny "dollars". We note Paramount had one in their July price list at $1,250; surely this "GEM" herein offered now worth closer to $2,000.00.

1606. 1854 Virtually Uncirculated, faint rubbing obverse and a few bag-marks, nick in reeding.
1607. 1854 Another, extremely Fine & Sharp, bag-mark in field.

$3 1855 PROOFLIKE—LARGE "DOLLARS"

1608. 1855 LARGE "DOLLARS", GLITTERING GOLDEN PROOFLIKE WITH WIRE EDGE! So choice that it was acquired as a **"PROOF"** many years ago at $2,500 when "uncirculated" were bringing around $50. This is understandable as this date is **Excessively Rare in Proof and is unpriced in the Guidebook.** Since it does not have all the characteristics of a true Proof, we prefer to call it "Prooflike". A "Fantastic" specimen now worth in the "Mid Four Figures".

1609. 1856-S Fine to Very Fine obverse, reverse Very Fine.
1610. 1857 Extremely Fine, tiny edge nick.
1611. 1858 Acquired as a "PROOF" at $2,250.00. Careful examination reveals that it has been carefully "cleaned" to give it the appearance of a proof, SHARP. HIGH WIRE EDGE, in plastic holder. **A Rare Date in any condition as a mere 2,133 total were struck, including the few Excessively Rare Proofs.**
1612. 1859 Very Fine but polished.
1613. 1861 Extremely Fine but evidence at top of solder removal & re-reeding.

$3 1868 BRILLIANT PROOF

1614. 1868 BRILLIANT WIRE EDGE PROOF! ONLY 25 STRUCK OVER A CENTURY AGO. HOW MANY CAN STILL BE IN EXISTENCE! Surely worth a "Mid Four Figures".

1615. 1871 GLITTERING GOLDEN PROOFLIKE, HIGH WIRE EDGE BOTH SIDES! Acquired as a full "PROOF". Easily understandable as it has a **COMPLETE PROOF SURFACE BOTH SIDES AND IS RAZOR-SHARP IN STRIKE!** Rather deceptive as we had to study it quite closely to determine that it was not struck as an intentional proof. Only a total of 1,300 "business-strikes" plus 30 Proofs were struck" **Rare in any condition but EXCESSIVELY RARE IN THIS REMARKABLE STATE!** Probably exceed its cost of $2,500 as rarities (particularly gold) now seem to be "coming into their own". PLATE

1616. 1872 Glittering Golden Prooflike with Wire Edge. SCARCE. PLATE

$3 1876 PRISTINE PROOF

1617. **1876 BRILLIANT GEM PROOF! PRISTINE! ONLY 45 STRUCK NEARLY A CENTURY AGO. THE CHOICEST SPECIMEN OF THE SECOND RAREST $3 GOLD THAT WE CAN RECALL SEEING OVER THE YEARS!** Regardless of the price paid, we believe the proud new owner will receive "dividends", both in pride of possession and also monetarily, as new records keep being set for the "rare" and "choice" coins. This is the "Terrell" coin auctioned by "American Auction Assoc." May, 1973 and which the price list indicates fetched $16,000.00. In our opinion, a "bargain", as **we have seen more 1875 $3 gold in this condition than we have of 1875 in our Forty Years As Professional Numismatists!** A few more 1876 seem to exist (in spite of the fact that the "20" figure is incorrect for 1875 — the 1875 was restruck on two different occasions). The 1875 seem to have been "saved" while most of the 1876 seem to have been used for jewelry (holed, soldered) or even "spent".

An unusual opportunity to acquire **"THE FINEST".** Should now exceed $20,000.00. Perhaps closer to $25,000.00. PLATE.

1618. 1878 Brilliant Uncirculated, Sharp Struck, Wire Edge, "Gem" except for tiny "bag-mark" at numeral "8". We note Paramount's July price list has this date at "BU $950.00; BU, Choice $1,200.00." Present value?

1619. 1882 BRILLIANT PROOFLIKE, SHARP STRUCK WITH WIRE EDGE! Rather deceptive as present owner acquired it as a "PROOF", which it so closely resembles. We note Paramount's prooflike coin in their July price list was $1,450.00. **Present value for this remarkable specimen probably now over $2,000.00.**

1620. 1885 Extremely Fine with traces of prooflike luster in letters & date. **ONLY 801 STRUCK FOR CIRCULATION** (plus 109 proofs). **AMONG THE LOWEST COINAGES FOR THE ENTIRE SERIES. Paramount had an AU, choice coin in their July price list at $1,350.00. The market has advanced since then.**

1621. **1889 Prooflike, Sharp Struck with Wire Edge** but evidence of faint rubbing when inspected with glass. **Only 2,429 total struck!** Paramount did not have this date in their July price list but did have the 1888 (5,291 struck) in AU, choice at $795 & BU,choice at $1,295.00. **ONLY HALF THE COINAGE OF 1888.**

$4 1879 GOLD STELLA

1622. 1879 FLOWING HAIR, only barest traces of firction, Sharply Struck, close inspection reveals tiny spot where reeding has been repaired (to remove nick or solder?). Quite popular with new records being set nearly every time offered during the yast year.

$4 1880 STELLA

1623. **1880 FLOWING HAIR, BRILLIANT GEM PROOF but after carefully weighing it, we feel it is copper with glod-plating.** Rather deceptive, unless carefully checked. It pays to know who you are dealing with. As rare, if not actually rarer than the solid gold one butnotasvaluable. The solid gold one would bring many thousands today, if available. **This gold-plated specimen now worth in the "High Four Figures".**

$5 1795 SMALL EAGLE—CHOICE

1624. 1795 SMALL EAGLE, Near Uncirculated, only slight wear, choice.

$5 1796/5 SMALL EAGLE—CHOICE

1625. **1796 OVER 5, Near Uncirculated, Quite Sharp,** a glass reveals faint hairlines below eagle. Rather choice. **RARE.** Smaller coinage and less percentage saved. Scott states "Extremely Rare In Unc."

$5 HERALDIC EAGLE 1803-1812

1626. 1803 Over 2, Extremely Fine & Sharp.

1627. 1804 Small 8, Double-Cut 4, UNCIRCULATED, Sharp Struck but close inspection with glass reveals tiny nick at third star and just the faintest trace of rubbing, attractive luster. RARE. We have seen "Uncirculated" specimens or some of the "commoner" early dates at $2,000 and more.

1628. 1806 Round Top 6, BRILLIANT UNCIRCULATED, SHARP STRUCK, faint "bagmark" keeps us from calling it a "GEM." Highly desirable and unusually choice. RARE. We have seen "Uncirculated" specimens at $2,000 and more.

$5 1807 BUST LEFT—"GEM"

1629. **1807 BUST LEFT, BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! A MAGNIFICENT SPECIMEN OF THIS POPULAR "FIRST YEAR OF TYPE".** Acquired early this year at $2,500.00. Present value?

1630. 1808 BRILLIANT UNCIRCULATED, SHARP STRUCK, CHOICE! Superior to the two we saw at Boston A.N.A. in August priced at $2,000 and $2,250.00.

1631. 1812 BRILLIANT UNCIRCULATED, SHARP STRUCK, CHOICE! "Lint-mark" at cheek caused by tiny piece of lint adhering to the die after it was "wiped". Since it is minor and does not detract from the desirability of the coin, it is usually not mentioned.

$5 1813 NEW TYPE—"GEM"

1632. **1813 NEW "SQUARE HEAD", BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! RARE!** Popular for "type" Acquired early this year at $2,500.00. Present value?

$5 1834 NEW TYPE—PROOFLIKE

1633. **1834 New Classic Head, plain 4, PROOFLIKE, SHARP STRUCK WITH WIRE EDGE!** Acquired early this year at $975; we note Paramount had one (we do not know how it compared to this sharp struck specimen) in their July price list at $1,100; there was also **one at Boston A.N.A. at $1,500.00. Present value?**

1634. 1834 Plain 4, borderline Extremely Fine. Guidebook E. F. 275.00

1635. 1835 Extremely Fine, tiny line in field.

1636. 1836 Very fine & Sharp.

1637. 1837 Large Date (same size 1836) borderline Very Fine.

1638. 1837 Small tiny date, Extremely Fine, tiny scratch above date. Scott states "High R6 (13 to 15 known). Only one known in unc." VERY RARE! Not valued in Scott. Acquired early this year at $500.00. Present value?

1639. 1838 Fine. Catalogs 100.00

$5 1838-D — CHOICE

1640. **1838-D Mint Mark Above Date, UNCIRCULATED, SHARPLY STRUCK but a glass reveals faint rubbing in field. RARE. Popular "FIRST YEAR DAHLONEGA MINT". We have seen a coin not quite this choice at $2,500.00. Present value for this superior one? PLATE**

$5 1841-D — CHOICE

1641. **1841-D Recut Date, PROOFLIKKE, SHARP STRUCK! EXCESSIVELY RARE! Not priced in Scott above E. F.**

$5 1844-O — UNIQUE PROOF?

1642. **1844-O "PROOF" "PARMELEE COLLECTION"** lettered on plastic holder containing this "Fantastic" specimen. **IT HAS COMPLETE PROOF SURFACE BOTH SIDES AND RAISED BROAD EDGE!**

Scott on page 273 under **"BRANCH MINT PROOFS"** has the following: **$5 1844-O. Occasion unknown. Unique. ex. Parmalee sale."**

The rarity and demand for "Super-Coins", particularly the past year, has resulted in there literally not being a limit to what they will bring. For instance, the $5 1845-O "choice unc." in the Gilhousen sale (Superior L.A. 2/73) valued at $300, brought $2,000, after spirited bidding. Of course there is no relation between rarity and demand for that 1845-O and this **UNIQUE** specimen.

If an 1879-O BRANCH-MINT ROOF SILVER DOLLAR is worth $18,000 (which it brought in January — a second specimen is being offered in this catalog) **then this has to be worth several times that price — $50,000.00? Perhaps closer to $100,000.00?** This of course, is "logical thinking" but in numismatics "logic" doesn't always prevail. Sometimes coins bring "far more" than logic dictates. Then again, we have seen coins bring less than what they should "logically" be worth. We will know what role "logic" will play in this instance, after the sale. PLATE

$5 1860-D PRISTINE UNCIRCULATED "GEM" FINEST KNOWN?

1643. **1860-D BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE "MINT STATE 70"!** Perhaps an equal specimen could theoretically exist but **WE DO NOT SEE HOW A CHOICER SPECIMEN IS POSSIBLE!** An incredible specimen of the **THIRD RAREST DAHLONEGA MINT** $5. Scott states **"Extremely Rare In Unc."** We believe the owner made a wise decision earlier this year when he paid $3,500.00 for it as **"THE FINEST KNOWN".** The continuing strong market could result in a "run-away" price. Certainly there is no comparison in rarity and value for the $2,000 realized for the 1845-0 in the Gilhousen Feb. sale and this rarity in "Fantastic" condition. Surely it should bring in the "Strong Mid Four Figures."

$5 1861-D PRISTINE UNCIRCULATED "GEM" FINEST KNOWN?

1644. **1861-D BRILLIANT UNCIRCULATED, SHARP STRUCK GEM! PRISTINE "MINT STATE 70"! The choicest specimen we have seen in all our Forty Years As Professional Numismatists!** Scott Catalogue states **"EXCESSIVELY RARE IN UNC."**
IN DEMAND BY **"CONFEDERATE"** COLLECTORS AS **C.S.A. STRUCK SOME AFTER SEIZURE OF THE MINT! BY FAR THE RAREST DAHLONEGA MINT $5!** We have seen it sometimes compared to the 1861-D $1 gold in rarity. Again, we believe the owner made a wise decision whn he paid $15,000.00 for this incredible specimen earlier this year, when he acquired it as **FINEST KNOWN".** Certainly rarer and more desirable than some coins in the $20,000 to $25,000.00 class.

1645. 1861 Uncirculated with slight orange patina. In demand for "No Motto" type.
1646. 1866-S With Motto, very good. Scarce. Gilhousen "Fine" 2/73 brought 140.00
1647. 1868-S Extremely Fine, 2 tiny edge nicks. Scarce.

1648. 1872-S Virtually Unicrculated, only barest friction, quite sharp. RARE. PARTICULARLY SO CHOICE!

1649. 1879-S Extremely Fine & Sharp, some luster.
1650. 1880 Virtually Uncirculated, barest rubbing.
1651. 1881 Brilliant Uncirculated with Wire Edge, Choice.
1652. 1881-S Uncirculated with orange tint.
1653. 1882 Uncirculated with orange tint.
1654. 1882-S Brilliant Uncirculated, Sharplly Struck, faint bag-marks.
1655. 1884 Very Fine. Scarce. Low coinage.
1656. 1885 Brilliant Uncirculated, Sharply Struck, usual bag-marks.
1657. 1886-S Brilliant Uncirculated, Sharply Struck.
1658. 1892 Uncirculated with orange patina.
1659. 1892-S Very Fine. Scarce.
1660. 1895 Uncirculated orange, tiny edge nick.

1661. 1897 Pair, COARSE & FINE REEDING, virtually Uncirculated. INTERESTING!

1662. 1897-S, 99-S, 03-S, 06-S Average Extremely Fine.
1663. 1899 Uncirculated orange but somewhat bag-marked.

1664. 1904 Brilliant Uncirculated, SHARP STRUCK GEM! Scarce date.

1665. 1905 **Recut 5,** Uncirculated. Scarce date.

1666. 1908 Liberty, Brilliant Uncirculated, SHARP STRUCK GEM!

$5 GOLD 1878-1908 SET, COMPLETE EXCEPT TWO

1667. 1878 THROUGH 1908 LIBERTY, COMPLETE SET P-O-S-CC-D Except 1878-CC & 1887, mounted in plastic. Condition ranges mainly Extremely Fine to Near Uncirculated with following exceptions: 1879-CC, 80-CC, 83-CC, 93-CC Very Fine; 1881-CC, 88 (possibly "S" as abrasions around space for "S") Fine; some probably Uncirculated (including 82-CC, 91-CC) with typical "bag-marks". A highly desirable 71 piece set difficult to assemble today. Personal inspection suggested. The owner says that the "market value" was $17,500.00 in February, after the Gilhousen sale. It is difficult to estimate the present value of this set as the market value of many of the rarer pieces has advanced substantially since then.

$5 1887 PRISTINE GEM PROOF

1668. **1887 BRILLIANT GEM PROOF! PRISTINE! IT IS IMPOSSIBLE FOR A CHOICER SPECIMEN TO EXIST!** We do not know how many of the ONLY 87 STRUCK close to a century ago still remain in existence, but it cannot be very many. They just appear too infrequently. In fact, **this date has been offered fewer times over the years than other gold coins with less than half the coinage!**

It is interesting to note that most of the "Name" sales having a specimen, had it in varying degrees of impairment. The outstanding Wolfson col. (Stack's 10/62) and R. L. Miles (Stack's 10/68) had "Impaired Proofs."

We believe this 1887 $5 to be actually rarer than the 1876 $3 which brought $16,000.00 in May (American Auction Association - L.A.) In this era of Great Rarities "Coming Into Their Own", it will be interesting to see the bidding by knowledgeable collectors and dealers. **PLATE**

$5 INDIAN HEAD SET COMPLETE

1669. $5 INDIAN HEAD, 1908-1929 COMPLETE SET 24 mounted in plastic, Extremely Fine to Near Uncirculated, with following exceptions: 1908-D, 09-D Choice Uncirculated; 1911, 12, 15 unc. with usual "bag-marks"; 1929 Brilliant Uncirculated but has nick on leg & wing.

$5 INDIAN HEAD GOLD

1670. 1908-S Very Fine, usual faintly struck "S". SCARCE.
1671. 1909 Extremely Fine with some luster.
1672. 1909-D Brilliant Uncirculated, SHARP STRUCK "D", CHOICE.
1673. 1909-O UNCIRCULATED WITH SHARP STRUCK "O"! RARE. Easily worth over $1,000.00.
1674. 1910 Brilliant Uncirculated GEM! Rare thus.
1675. 1911 Uncirculated slightly orange, CHOICE.
1676. 1911-D Virtually Uncirculated, only barest friction. SCARCE.
1677. 1911-S Near Uncirculated with sharp struck "S".
1678. 1912-S Brilliant Uncirculated, usual light struck "S", CHOICE.
1679. 1913 Virtually Uncirculated, only barest friction.
1680. 1913 Brilliant Uncirculated, SHARP STRUCK GEM! Rare thus.
1681. 1914 Brilliant Uncirculated, SHARP STRUCK GEM! Rare thus.
1682. 1914-D Brilliant Uncirculated, SHARP STRUCK "D". GEM! Rare thus.
1683. 1915 Virtually Uncirculated, only barest friction.
1684. 1916-S BRILLIANT UNCIRCULATED, usual struck "S", GEM! Paramount's July price list had one with a little better "S" at 550.00

$10 GOLD 1801, 1804 CHOICE

1685. 1801 Extremely Fine & Sharp. Popular.

1686. **1804 BRILLIANT UNCIRCULATED, SHARPLY STRUCK! In fact, one of the Sharpest Struck we have seen over the years!** We are inclined to call it a **"GEM"** even though it has a few faint "mint equalization marks" done at the mint at time of manufacture to save the cost of melting and re-coining coins of slightly excess weight. **RARE DATE (Rarity 6) BUT EXTREMELY RARE SO CHOICE!**

$10 GOLD, LIBERTY HEAD TYPE

1687. 1847 Near Uncirculated, only slight wear.
1688. 1850 SMALL DATE (punches of $5 used by mistake). Extremely Fine. Listed in Breen's "U.S. Eagle" monograph as "RARE".

1690. 1854-S Extremely Fine. First year of San Francisco Mint.
1691. 1855 BRILLIANT UNCIRCULATED, SHARP STRUCK, only faintly bag-marked. RARE.

1692. **1858 VIRTUALLY UNCIRCULATED, SHARP STRUCK WITH NEARLY FULL LUSTER, WIRE EDGE! Only the faint rubbing in field keeps it from being a strictly uncirculated "GEM".** Scott Catalogue has **"R6, UNKNOWN IN UNC. New head, curls detached from back of neck and separated from each other, the lower curls well away from neckline."**

A 1961 letter from **THE SMITHSONIAN INSTITUTION** has the following: **"I am returning the 1858 ten dollar gold piece to you herewith. In my opinion its authenticity is beyond any doubt. I base this opinion on the fact that the coin was struck from the same pair of dies as the proof specimen (Philadelphia mint) ten dollar gold piece of 1858 in the original United States Mint Collection. To bring irrefutable proof to this statement we made (and enclose) enlarged transparences of your coin and a similar piece in the United States Mint Collection. Superimposition of these transparences will demonstrate the fact that both obverse and reverse of these two pieces originated from the identical dies. Very sincerely yours, V. Clain-Stefanelli, Curator, Division of Numismatics."**

The two largest gold collections to be sold in modern years had this to say about the 1858 they had:

WOLFSON, auctioned by Stack's, Oct., 1962. **"1858 Extremely Fine. Considered in some circles to be the Rarest of all United States $10.00 gold coins and one of the rarest of all United States Gold coins. The piece offered here is one of the finest available today; this of course excluses the two Brilliant Proof specimens known. One is in the Smithsonian Institution. the other in a prominent Mid-West collection, both of which are not available and not considered collectable today.** A very low mint record of only 2,521 struck. **From available records of both public and private sales we doubt if more than 15 specimens exist today.** In 1949, B. Max Mehl states, "I find that certainly no more than six specimens are known to exist." Numismatic history shows that prior to 1956 this coin had fewer auction appearances than most other rare coins. However, since 1956, with the upsurge of United States Gold Coin collectors, it has become apparent that a few more specimens have come to light. They have barely satisfied the demand for this rare coin. Taking into consideration all the known facts, after careful research and comparison, **we estimate the value of this Extremely Fine specimen at $5,000.00." It sold there for $4,250.00.**

MILES, auctioned by Stack's Oct., 1968. That also was "Extremely Fine" and sold for $4,300.00. The Shuford Sale by Kosoff also contained a Very Fine specimen which sold for $4,000.00. The other specimens (for which we could find any records) appear to be from very fine down to those with considerable wear.

CONDITION is a KEY POINT on this Date and Mint as 1858-O and 1858-S were also struck. THERE IS NO QUESTION ABOUT AUTHENTICITY IN THIS VIRTUALLY UNCIRCULATED SPECIMEN. A comparison of this ocin with the plates of the Wolfson and Miles coins makes it self-evident that this **specimen is MUCH SUPERIOR! Not only is it sharper, but it has MUCH CLEANER SURFACES AND MUCH LESS ABRASIONS!**

We note the Guidebook no longer attempts to evaluate this date in the highest state of preservation. It does list E. F. at $5,000.00. Therefore, this **FINEST AVAILABLE" specimen in PRACTICALLY UNCIRCULATED should be worth at least $10,000.00. PLATE**

$10 1858-O—CHOICE

1693. **1858-O Virtually Uncirculated, only barest friction, pinpoint edge nick. Scott states "Excessively Rare In Unc.".**

$10 1859-O "FINEST KNOWN?"

1694. **1859-O Very close to Uncirculated, only slightest wear, much "Mint Luster" still visible.** Scott states **"LOW R7 (ONLY 10 TO 12 KNOWN) UNKNOWN IN UNC."** The Gilhousen Very Fine coin brought $800 Feb., 1973. This choice specimen acquired earlier this year as **"FINEST KNOWN"** at $1,750.00. Surely the "Finest Known" of a "Rarity 7" $10 should be worth closer to "Mid Four Figures".

$10 1865-S OVER INVERTED 186

1695. 1865-S In plastic holder lettered **"1865 OVER 981 1988615 (SIMILAR TO 1841 OVER 81 AND 1851 OVER 81 1¢ "SAN FRANCISCO MINT" "MAJOR ERROR DIE".** Extremely Fine but actually deserving a higher grade as the flattening of the top curl over ear may be partially due to the die rather than completely attributable to wear. Acquired earlier this year — notation has "Discovery Piece"', Gilhousen E. F. $1,300, A. U. bargain $1,750". A most inteersting and rare piece.

1696. 1878 Brilliant Uncirculated, Sharp Struck, Wire Edge! Only the few customary bag-marks prevents us from calling it a "GEM".

$10 1879 OVER 8?

1697. **1879, "9" OVER "8" or possibly "9" - Part of Underlying 8 or 9 Quite Sharp in bottom of "9". Extremely Fine and Sharp. FIRST SEEN IN OVER FORTY YEARS AS PROFESSIONALS! Not in Breen, Scott or other references!**

$10 1879 "DOUBLE 9" PRISTINE

1698. **1879, 9 OVER 9 with Tail of First 9 Sharp & Clear Inside and to the left of final 9 ENTIRELY DIFFERENT THAN ABOVE LOT. BRILLIANT PROOF-LIKE, SHARP STRUCK WIRE EDGE GEM! THE CHOICEST NON-PROOF OF THIS DATE WE HAVE SEEN IN ALL OUR FORTY YEARS AS PROFESSIONALS!**

$10 1879-O—CHOICE

1700. **1879-O Extremely Fine & Sharp with Considerable Mint Luster!** The Gilhousen catalog stated **"Probably no more than 25 pieces exist."** That V.F. coin brought $1,250.00. This somewhat superior specimen should now bring somewhat more, possibly closer to $2,000.00.

1701. **1892-O Brilliant Uncirculated with Full Luster, fewer than the usual quota of bag-marks. LOW COINAGE.**

1702. 1899 Brilliant Uncirculated, Full Luster, fewer than usual bag-marks. The "Choice B.U." Gilhousen coin in Feb. brought $210; this worth?

PIONEER & TERRITORIAL GOLD

Possibly the most intriguing, historical and interesting series of American Coinage. Much research, study, books and articles about the "Necessity Coins Of The West" has been done. In fact, new material and coins are still being uncovered. There has been a new surge of interest in this series the past year resulting in many new records being set, both in outright sales and in auctions. In fact, some have doubled and even tripled in value during the past year. The trend, while still continuing, seems to be more selective in nature with the truly chaice and rarest pieces being in strongest demand.

AUGUSTUS HUMBERT — U.S. ASSAY OFFICE OF GOLD S.F. PROVISIONAL MINT CONTRACT COINAGE FOR U.S. GOV'T.

Congress authorized a United States Assayer (Augustus Humbert) to supervise the coins struck by Moffat & Co. under contract from the U.S. Government. The Government stamp UNITED STATES OF AMERICA and the assayer AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA appear on the coins, together with their Gold Fineness and value. In January, 1852, Augustus Humbert's name was replaced with UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA, with coinage proceeding through 1853; at which time the U.S. Government bought out the private firm and established it as the San Francsico U.S. Mint (regular U.S. coinage starting 1854). Collected as U.S. coinage as well as "Pioneer Gold".

$50 GOLD 1851 "HUMBERT"—CHOICE

1796. **$50 1851 AUGUSTUS HUMBERT, reeded edge, 880 THOUS., Virtually Uncirculated,** only barest friction, considerable luster, nearly complete Wire Edge around obverse. SHARPER STRUCK THAN MOST with only UNITED STATES, while fairly sharp, is not fully struck up (portion not having wire edge). Usual minute imperfections in planchet at striking (nearly all we have seen over the years have them, therefore they are seldom mentioned) resulitng in what appars to be a tiny edge nick but is actually a planchet imperfection at time of striking. **AN OUTSTANDING SPECIMEN!** Easily worth into "Five Figures."

$50 GOLD 1851 UNLISTED "TRANSITIONAL"

1797. $50 M ounted in holder lettered **"$50 GOLD SLUG, AUGUST HUMBERT 1851 CALIFORNIA, REEDED EDGE 887 THOUS., Obverse Similar To Regular 1851 But Reverse Of 1852 With Small Center Target And Small Outer Ring. UNLISTED MAJOR VARIETY. This is a part of the U.S. coinage since they were struck for and by the authority of the United States under the supervision of the U.S. Assayer, August Humbert".** Very Fine to Extra Fine obverse, later die state(most normal 1851 are from this die state) with AUGUSTUS and OF GOLD not struck up. The reverse is EXTRA FINE. The normal amount of "handling marks" for this grade are there. Better than most 1851 $50 gold "slugs" we have seen.
ONLY 3 OR 4 SPECIMENS REPORTED, EVEN THOUGH CAREFUL SEARCH HAS BEEN MADE SINCE THE DISCOVERY SPECIMEN WAS PUBLICIZED IN 1956!
Certainly a substantial "Five Figures" Rarity with a potential of sometime reaching "Six Figures". To date, it is **"THE RAREST COLLECTABLE $50 GOLD".**

$50 GOLD 1852 "HUMBERT"—UNCIRCULATED

1798. **$50 1852 AUGUSTUS HUMBERT, UNCIRCULATED! FULL MINT LUSTER!** Careful examination reveals that the slight flattening in the center of the eagle was caused by the striking and is not due to wear. In fact, **THIS IS THE SHARPEST STRUCK SPECIMEN OF THHIS VARIETY THAT WE HAVE SEEN!** Most come with severe weakness in the outer legend. The outer legend on this remarkable speciment is **UNUSUALLY BOLD! No signs of wear.** In fact, **THE REVERSE IS SUPERB!** The only fault one might find, if he were super-critical, is the minute bag-mark in field. **ONLY STRUCK A FEW DAYS BEFORE THE CHANGE TO "UNITED STATES ASSAY OFFICE." ONE OF THE MOST UNDERRATED OF ALL THE $50 "SLUG" VARIETIES! "EXCESSIVELY RARE IN THIS CHOICE STATE OF PRESERVATION!** We have seen "Uncirculated" specimens of the "commoner" varieties at $20,000 to $25,000. What then, is this Far Greater **Rarity worth? PLATE**

$10 1852 AUGUSTUS HUMBERT

1799. **$10 1852 OVER 1, Virtually Uncirculated, only barest friction, characteric reverse die break. A difficult coin to find so nice. In fact, the Guidebook does not price it in this choice state of preservation.** We saw one in Boston A.N.A. (a shade less in condition) priced $1,500; this superior specimen now probably worth closer to $2,000.

1800. **$10 UNLISTED VARIETY.** Acquired as **"ERROR DIE (IINITED) Similar to 1801 3-Errors 1¢. Virtually Uncirculated, only barest friction,** slight contact mark on edge reeding (discernable only after removing it from holder). Bought earlier this year at $2,500.00 Present value?

$20 1853 U.S. ASSAY OFFICE — UNLISTED VARIETY

1801. **$20 1853 UNITED STATES ASSAY OFFICE OF GOLD SAN FRANCISCO CALIFORNIA, BRILLIANT UNCIRCULATED, SHARPLY STRUCK GEM! PRISTINE!** Rare variety with **INVERTED "V" FOR "A" IN AMERICA!** The condition alone places it is the "Several Thousand Dollars" category, but as a **"Rare Naked-Eye Variety", it is worth substantially more!**

$5 1849 NORRIS, GRIEG & NORRIS

1802. **1849 Reeded Edge, very close to Uncirculated with only slight friction, pin point edge nick. RARE SO CHOICE! The first California Gold Coin listed. Scarcer than the plain edge variety. Acquired earlier this year at $1,975.00. Present value in this strong market for Rare & Choice?**

1803. **1849 Plain Edge, sharpness of Extremely Fine but porous planchet. Acquired earlier this year at $1,250.00. Present value?**

MOFFAT & CO.

1804. **$5 1849 Extremely Fine & Sharp, "S.M.V. (Standard Mint Value) California GOLD". Popular. Acquired earlier this year at $850.00. Present value?**

1805. **$5 1850 Extremely Fine, reverse at right angle to obverse. Cost $850.00. Present value?**

1806. $20 1853 Fine to Very Fine with abrasions indicating its extensive use.

$10 1849 MINERS BANK

1807. $10 (1849) MINERS BANK, BRILLIANT UNCIRCULATED, CHOICE! EXTREMELY RARE IN THIS REMARKABLE STATE OF PRESERVATION. WELL WORTH CLOSE TO "FIVE FIGURES".

$5 1849 PACIFIC COMPANY

1808. Accompanying the coin is **"1849 PACIFIC COMPANY CALIFORNIA around eagle; Reverse 5 DOLLARS below radiant liberty cap interspersed with stars, practically Uncirculated, reeded edge. Struck on planchet said to be of low grade gold and then gold plated. Owner says he paid $14,500.00 Only three regular gold specimens are known (in Mint collection; the the C. Williams piece and the Brand piece which we sold in our March, 1964 auction and which was finally knocked down after spirited bidding at $18,000." "May, 1966". It sold there at $7,000.00. The price of $14,500.00 said to have been paid for it some years ago now seems to be more in keeping with present values for this historical series. We note a Georgia dealer was offering to pay $27,500.00 for an XF specimen in June. The price structure for Pioneer Gold is now higher. PLATE**

$10 1850 BALDWIN & CO.

1809. **$10 1850 BALDWIN & CO., CALIFORNIA GOLD, popular cowboy type, Uncirculated.** Struck in either copper or white metal and gold-plated. Notation says **"Walton gold coin in October 1963 was bid on for $8,000.00."** Acquired from Jan. 1965 Federal Brand (Cleveland) price list at $1,450.00. Present value?

$10 & $50 WASS, MOLITOR & COMPANY

1810. **$10 1852 Large Head, Very Fine, typical strike(as on all we have seen) from dished dies with reverse not as sharp as obverse. Acquired earlier this year at $1,950.00. Present value ?**

1811. **$50 1855 ROUND** (popular as the only "Round $50" available.) **Extremely Fine with some sections suggesting a higher grade,** typical strike with LL in DOLLARS not fully struck up, traces of luster. **ONLY A SMALL AMOUNT OF BAG-MARKS COMPARED TO MOST SPECIMENS WE HAVE SEEN OVER THE YEARS! Far superior to most we have seen(**which were "tooled" to remove the numerous abrasions which seem to plague these large soft coins). We have seen specimens this year priced at $17,500 and $20,000.00 which are certainly not superior and we doubt if they were even equal to this choice one. **EXTREMELY RARE SO CHOICE!**

$20 1854-55 KELLOGG & CO.

1812. **$20 1854 KELLOGG & CO. Short arrows variety, yellow gold, near Uncirculated, unusually sharp hair. Acquired earlier this year at $1,500.00.**

1813. **$20 1855 Long Arrows, orange gold, near Uncirculated, sharp hair. Acquired earlier this year at $1,500.00**

1849 CALIFORNIA MODELS SET & 1852 CALIF. COUNTER

1814. **1849 SET CALIFORNIA Model Half Eagle, Model Dollar, Model Half Dollar, Model 1/4 Dollar mounted in holder. Listed in Adams 1913 book "PRIVATE GOLD COINAGE". Acquired earlier this year at $1,000.00**

1815. **1852 & 13 Stars around Liberty Head, rev. CALIFORNIA COUNTER around flag, $20 size, extremely fine, gold-plated, scratch (to see if gold?) Mounted in plastic lettered Adams 34, Coins Of California.**

FRACTIONAL CALIFORNIA GOLD

1816. **HALF DOLLARS** 1856 oct. ex. fine; 1870-G, 1871G round fine.

1817. $½ Size octagon "1886 CAL. GOLD CHARM", "EUREKA" above sea scene, Proof.

1818. **1849 BRITISH COLUMBIA GOLD TOKENS** on holder, Large size $1 Liberty, 10 stars, 1849 CANADA on head, rev. BRITISH COLUMBIA GOLD around eagle with REG. below; smaller size $1 Liberty, 9 stars, 1849, MRIA on head, rev. ONE above shield with REG. 9K Y below; $½ Liberty, 7 stars, 1849, rev. ¼ above shield. Burine says **"They are all quite rare and very seldom offered for sale. I believe they were made for the Hart Co." (who sold a numbr of State Gold tokens at the 1915 Panama Pacific Exposition.**

1849 MORMON GOLD $2½, $5, $20

1819. **$2½ 1849 "HOLINESS TO THE LORD" around bishops' hat and eye, rev. G.S.L.C.P.G. (Great Salt Lake City Pure Gold) TWO.AND.HALF.DO. around 1849 and clasped hands (exemplify** strength in unity). **Virtually Uncirculated, only barest rubbing, SHARPLY STRUCK!** All we have seen over the years have come with varying degrees of weakness due to their being struck from "dished dies". This is from the **EXTREMELY RARE EARLY DIE STATE WITH COMPLETE AND SHARP DATE, AS WELL AS FULL DETAILS IN THE HANDS,** only the beginning stage of the die failure below the the eye is apparent. **EXCESSIVELY RARE IN THIS REMARKABLE STATE OF PRESERVATION FROM THIS DESIRABLE EXTREMELY RARE EARLY DIE STATE!** Scott states **"Always found bulged from sunken obv. die, and seldom with all letters plain."**

Acquired earlier this year as **"SHARP STRUCK GEM"** and **"FINEST KNOWN"** at $3,500.00. We admit it is the choicest specimen we can recall in our Forty Years As Professional Numismatists but we do not know if it is the "Finest Known".

This beauty should certainly now be a "Mid Four Figures" coin.

1820. **$5 1850 UNCIRCULATED, SHARPLY STRUCK! EXTREMELY RARE SO CHOICE! Acquired earlier this year at $3,500.00 Present value?**

1821. **$20 1849 Obverse with Bishop's SHARP and EVENLY STRUCK, QUALIFYING IT AS ABOUT EXTREMELY FINE! Reverse VERY FINE except for weakness at TY, clasped hands evenly worn but still fairly sharp.** Scott states **"LOW R7.(ONLY 10 TO 12 KNOWN). Usually weakly struck at clasped hands."**

Among THE MOST WANTED AND RAREST OF PIONEER AND TERRITORIAL GOLD! Easily worth "WELL INTO FIVE FIGURES" and possibly not far from "MID FIVE FIGURES". **PLATE**

COLORADO GOLD PIECES
1860 CLARK, GRUBER & CO.

1822. $2½ 1860 **"CLARK & CO."** on coronet, rev. **"PIKES PEAK GOLD DENVER", lovely BRILLIANT UNCIRCULATED SPECIMEN with BROAD RAISED EDGE BOTH SIDES, SHARP "SQUARE" PERFECT REEDING (generally associated with PROOFS or SPECIMEN Strikes), SHARPLY STRUCK with VERY RARE EARLY DIE STATE showing only beginning stage of die failure at center (only ear of Liberty & corner of shield on corresponding portion of reverse not fully struck up). EXTREMELY RARE IN THIS REMARKABLE CONDITION!**

The popularity of this series, particularly the last six or seven months, has resulted in some sharp increases in value—especially for those in "Top Condition". This particular specimen was acquired earlier this year at $2,500.00. After seeing the specimen at the Boston A.N.A. convention in August, and their prices, we conclude that the $2,500 paid for this remarkable specimen earlier this year is now a "bargain". In a ratio of values, in comparison with the other specimens, this Exceptionally Choice one should now be worth upwards of $3,500.00.

1823. $20 1860, **"PIKES PEAK GOLD TWENTY D."** around stylized triangular mountain with **"DENVER"** below, rev. **"1860 CLARK GRUBER & CO."** around eagle, **virtually Uncirculated, only barest friction.** Gold-plated pattern lisetd in Scott as **"R7. (ONLY 7 to 9 KNOWN)" which would make it as Rare, if not actually Rarer than the regular gold specimens.** Acquired earlier this year at $2,500.00. Present value?

1861 CLARK, GRUBER & CO.

1824. **$2½ 1861, "PIKES PEAK" on coronet, rev. "CLARK GRUBER & CO. DENVER", virtually Uncirculated, only slight friction, Wire Edge. Desirable early die state with only slight weakness of striking at ear and corresponding spot on reverse (top left corner of shield) normal edge reeding.** Specimens in E.F. and A.U. have been offered at the March through June convention by dealers with price tags hovering in the $1,500.00 range. At the Boston A.N.A. we saw at "A.U." one(not quite as sharp as this one) at $1,975.00. Present value?

1825. $2½ 1861, Acquired as **UNLISTED VARIETY: Similar to normal dies except EXTRA HIGH EDGE, CLOSER THAN NORMAL EDGE REEDING and RECUT STAR above P in PIKES. SHARPER IN STRIKE THAN ANY I HAVE SEEN, UNCIRCULATED."** Cost $5,000.

It is indeed, **THE CHOICEST $2½ CLARK GRUBER WE HAVE SEEN!** The condition alone makes it worth several thousand dollars but as an **UNLISTED VARIETY,** it is worth a substantial additional premium. Present value?

1826. $5 1861, Similar to above type except lettering is larger and "FIVE D.", **UNCIRCULATED, SHARP STRUCK WITH WIRE EDGE!** The center curl and ear instead of being the usual weak strike, are close to being Fully Struck Up. **The neck of the eagle and top of the shield are much sharper than usually encountered. FULL MINT LUSTER WITHOUT ANY HANDLING MARKS OR ABRASIONS, LOVELY YELLOW COLOR! Truly deserving of being called a "GEM"!** It might be a bit presumptuous for us to place a value on such an unusual specimen, however there was one at the March New York City convention priced at $3,500.00. Although it was described as "GEM", we do not know how it could be superior to this specimen. The price level for choice "Pioneer & Territorial Gold "has advanced since then. The specimen herein offered is struck from the die with RECUT "E" IN FIVE D.

1827. $10 1861, Acquird as **"UNLISTED VARIETY, RECUT DATE (recut first "I" at bottom), SHARPER IN STRIKE THAN NORMALLY SEEN, CHOICE ABOUT UNCIRCULATED"** at a cost of $2,950.00

It is indeed an **Exceptionally Nice Strike from the RARE EARLY DIE STATE** before the failure of the die at the eagle's claws progressed very far. **Its Exceptional Condition alone would make it compare favorably in price with specimens we have seen offered** (as normal die specimens). Present value?

1861 $20 CLARK, GRUBER UNCIRCULATED

1828. $20 1861. Acquired as **"V" OVER "N" (DENNER) IN DENVER. UNCIRCULATED. Similar to Painter specimen** (Kenyon Painter collection, booklet with photographs written by A. Kosoff and copyright by Sol Kaplan 1964) **which had one struck from regular dies (very fine). The other "from a different die than that used on the regular issue. All of the stars and the date were recut. The date is a bit smaller than on the regular issue and the stars, originally cut larger are now considerably less uniform, especially those facing Liberty. The border is raised, edge milled. Extremely Rare. Mr. Painter believes it to be unique. Very Fine."**

"This coin also has a RAISED BORDER and RECUTTING IN DATE AND STARS". The owner paid $15,000.00 for it.

It is indeed a lovely specimen with nearly all of its **ORIGINAL LUSTER** and is remarkably free from the usual nicks or abrasions. A glass would show faint "rubbing" or friction on the high point, which may have been caused by its reposing in collections for the past century. **IT IS ONE OF THE SHARPEST STRUCK SPECIMENS WE HAVE SEEN! PLATE**

1861 PATTERN GOLD-PLATED CLARK, GRUBER $2½-5-10-20

1829 **1861 COMPLETE SET FOUR** struck in copper (reeded edge) and Gold-PLATED. **The $2½, $5, $20 ARE BRILLIANT PROOFS! The $10 is BRILLIANT UNCIRCULATED.** While single specimens have occasionally appeared over the years, **THIS IS THE FIRST TIME WE CAN RECALL CATALOGING A COMPLETE SET IN ALL OUR 300 SALES!** This is understandable when one considers the rarity of some pieces, particularly the $20 which is listed in Scott as **RARITY 7 (ONLY 7 TO 9 KNOWN)!** We note some individual specimens (not as choice as these) were at the Boston A.N.A. at prices close to $1,000 each. What then, should this complete set in this remarkable condition be worth? Surely over $5,000 and possibly closer to $10,000.00. It is difficult to "project" values for Extremely Rare coins since their very rarity prevents them from being offered sufficiently to be "touted" and new records set.

C. BECHTLER CAROLINA & GEORGIA GOLD 1830-42

1830. **$5 C. BECHTLER At Rutherf, CAROLINA GOLD 124.G. 21 Carats, near Uncirculated with Much Original Mint Luster still adhering.** Scott states **"Worn die, serrations gone". This is one of the better strikes with only slight weakening at the tips of NA.** Interesting variety with **Inverted Reverse.** Popular. **PLATE.**

1831. **$2½ BECHTLER Rutherf, GEORGIA GOLD 64.G 22 Carats, uneven 22 (first low, second high) interesting variety with Inverted "V" in place of A's in CARATS, near Uncirculated, Quite Sharp. Acquired earlier this year at $1,250.00. Popular. Present value? PLATE**

UNLISTED 19TH CENTURY GOLD BAR

1832. **Rectangular Gold Bar,** stamped **Mrs. NASH, yellow gold with slightly porous face, 2¾ ozs, 1½ inches long, ½ inch wide and nearly ½ inch high.** The present owner states **"I got it from B. Max Mehl about 25 years ago. Mahl said that it had been in his personal collection of bars about 30 years or so and that the collection from which it came was formed in the Nineteenth Century. Mehl further stated that he believed it was made somewhere around the 1870's, when it was customary to make up small gold ingots for important stockholders or owners of the gold mines."** Interesting piece for further research. Valued by owner at $5,000.00. We do not know whether this valuation is too high or too low — it depends upon what further research uncovers regarding its history. We did see three gold bars at the Boston A.N.A. convention; two small ones were priced around $5,000.00 each and the large one at around $25,000.00. They had more stampings on them regarding their origin. **PLATE**

1907 $20 ST. GAUDENS GOLD PATTERN

1833. $20 1907 J-1779a, "Regular dies trial piece, "Arabic" date type. Brass — L. E. (Lettered Edge) R. 7. All seen to date have been mutilated at mint by being passed through rollers, acquiring elongated oval shape." NOT LISTED IN THE FIRST THREE EDITIONS OF JUDD! Its GREAT RARITY is established. What remains to be established is its value. As a SAINT GAUDENS GOLD PATTERN, IT IS OF THE HIGHEST DESIRABILITY!

It is interesting to note that J-1778, the 1907 Roman Date $20 in extra high relief listed by Judd as R.6 (22 struck) with a Judd value of $32,500 (1970) recently sold for $125,000.00. Perhaps there is some relation between that and this rolled-out pattern. Perhaps not. You decide.

LINCOLN GOLD TOKENS

1834. **$1 Gold Size (Large) "1927 Abraham Lincoln" around bust, rev. "A TOKEN" & crossed axes. Another dated 1939 with stars on rev., GEM MATTE PROOF PAIR.** **250.00**

1835. $5 Gold Size, bust Lincoln right in High Relief, otherwise blank, Prooflike.

CONFEDERATE GOLD REPLICA

1836. Confederate Half Dollar die, rev. Confederate seal 22 February 1862, etc., **struck in gold, BRILLIANT PROOF.** Holder has "CONFEDERATE Replica".

5 OZS. 1939 PLATINUM NEW YORK FAIR MEDAL

1837. **HUGE 2¼ INCHES MEDAL "1939 NEW YORK WORLD'S FAIR, BAKER PLATINUM NEWARK, PLATINUM FROM THE MINES OF CANADA — WORLD'S LARGEST DEALERS IN PLATINUM METALS", rev. "PLATINUM TROY WT. FIVE OZS. 999 FINE, ENGELHARD INDUSTRIES, BAKER & CO., INC. NEWARK, N.J. U.S.A., REFINERS and WORKERS of PLATINUM, GOLD, SILVER".**

LOVELY GLITTERING PROOF! Interesting design with moon, stars, etc. **THE LARGEST PLATINUM PIECE WE CAN SECALL SEEING IN ALL OUR FORTY YEARS AS PROFESSIONAL NUMISMATISTS!** Highly desirable as a **1939 WORLD'S FAIR PIECE.**

Possibly **UNIQUE** as this is the only specimen to the best of our knowledge. Quite understandable, when one considers how many Russian platinum coins of the early 19th century, as well as other platinum coins and medals were melted for their metal value during World War II, when platinum reached $400 an ounce. That would make this 5 ozs. piece worth $2,000 in metal value alone about 20 years ago. **Very few specimens were struck in 1939 and we do not know of the existence of another one!**

As B. Max Mehl would say, **"I do not know which is rarer; the piece itself or the opportunity to buy it." PLATE**

COLORADO TERRITORY

1838. $5 DENVER, COLORADO NATIONAL, August 15th, 1886, No Charter number. F397, Very Good with tiny repair at tip of corner. A well preserved note with clear signatures and even wear. We ran a $2 note from the same bank in somewhat better condition in our April 1973 (300th) sale where it realized $5,100. The increasing demand for Rare Territorials leads us to believe that this EXTREMELY RARE TERRITORIAL should now be worth closer to 3,500.00

COLORADO NATIONALS

1839. $5 FIRST CHARTER, Series 1875, BOULDER, National State (2355), date 1877, VERY RARE BANK! F402, Fine. VERY RARE NOTE. 600.00

1840. $5 FIST CHARTER, Series 1875, DENVER, German (2351), date 1877, EXTREMELY RARE BANK, LIQUIDATED IN 1894! F402, Very Good with some unevenness around edges. Well worth 750.00

POSSIBLY UNIQUE IDAHO SPRINGS NATIONAL

1841. **$20 1882-1908 BACK, IDAHO SPRINGS, Merchants and Miners (5989). AN INCREDIBLY SMALL TOTAL FACE VALUE OF ONLY $1,250 OUTSTANDING FROM ALL SERIES SINCE 1917 (bank liquidated in 1918)!** In view of these facts, credence must be given to the owner's claim that this note is possibly **UNIQUE.** By far the smallest outstanding issue of any Colorado note and certainly among the rarest of all national bank notes issued by all the banks in the U.S.! This note has an Extremely Fine face with its back not quite as bright. The rarity of this note defies estimation.

EXCEEDINGLY RARE $100 RED SEAL COLORADO NATIONAL

1842. **$100 1902 RED SEAL, LEADVILLE,** Carbonate (3746), SERIAL #1! Scarce Bank liquidated 1925. Extremely Fine with square corners. All red seals are undervalued, but when one becomes available from a RARE STATE IN THE HIGHEST DENOMINATION, WITH SERIAL #1, it is a "once in a decade" opportunity and will probably result in a new record.

1843. $10 1902-1908 AULT, Farmers (8167), VERY RARE BANK! F616, Very Good.

1844. $10 1902-1908 BACK, OLATHE, First (9719), VERY RARE BANK! F616, About Fine but with some rust spots.

1845. $10 1902 DELTA, First (5467), RARE BANK liquidated 1929. F633, Extremely Fine.

1846. $20 1902 DENVER, THE UNITED STATES NATIONAL BANK (7408), one of the few "forbidden title" banks as the government stopped its use after a few banks had adopted the name. F650. New, crisp except for a faint crease.

1847. $5 1929, CORTEZ, Montezuma Valley (9100), VERY RARE AND HISTORICAL NAME BANK! DESIRABLE #1! New, crisp CHOICE. 250.00

UNIQUE $20 GOLD "DOUBLE STRUCK" MINT ERROR "THE KING OF MINT ERRORS"

1848. **$20 1904 SHARPLY DOUBLE STRUCK THROUGHOUT OBVERSE AND REVERSE! "A FANTASTIC" SHIFT IN THE SECOND STRIKING OVER THE FIRST STRIKING!** This occurred **IN THE COLLAR** which makes it even more dramatic! **BRILLIANT UNCIRCULATED CHOICE!**

NOT LISTED IN SCOTT, even though it does list a $3 gold (3 known)! **UNDOUBTEDLY UNIQUE!**

If the 1804 Dollar is **"THE KING OF AMERICAN COINS"**, then this **UNIQUE Double Eagle** is **"THE KING OF MINT ERRORS"! We could not believe this "Fantastic" Error existed until we actually saw it!** Certainly, **THE MOST DESIRABLE AND RAREST OF ALL ERRORS!**

It would be presumptuous of us to place a value on a Unique Gold piece such as this. Regardless if one offered $25,000.00, even $50,000.00, for another double-struck 1904 $20 Gold, who could supply one?

Surely this **UNIQUE GOLD ERROR** is a "Five Figures" coin — the only question in our mind is "How Much Of A "Five Figures" coin? **PLATE**

UNIQUE 1968-S MINT ERROR PROOF SET

1849. **1968-S Proof Set In Original Container but THE CENT IS STRUCK ON THE DIME PLANCHET!** We have checked with the leading authorities in Mint Errors and have been assured that **THIS SET IS UNIQUE!** We cannot see how it could happen, but it did. Proofs are made specially for collectors under rigid conditions and inspected a number of times during their production. **In fact, they are inspected so many times that it is virtually impossible for this to happen — but it did — once!**

Another different kind of error also occurred in 1968-S Proof Sets. Several sets exist with the "S" mint mark missing from the Dime. It is Extremely Rare, and the Guidebook indicates its existence (page 60) but does not price it. The Sept. Wall Street Coin Investor (page 2) lists this set at bid (prices dealers offering to pay) at $6,100.00 in August and $6,800.00 in Sept. **EVIDENTLY THE DEMAND FOR RARE PROOF ERROR SETS IS INCREASING, AND BEING REFLECTED IN RISING PRICES!**

It will be interesting to see what this **RARER ERROR PROOF SET** will bring. **PLATE**

SEMI-UNIQUE 1969-S MINT ERROR PROOF SET

1850. **1969-S Proof Set in Original Container but AN EXTRA KENNEDY HALF DOLLAR STRUCK ON A QUARTER PLANCHET IS IN THE PLACE OF THE QUARTER!** We will leave it to the mathematicians to estimate the odds that this could happen — but it did. **The leading Mint Error authorities have a record of only one other such set existing.**

In 1970-S, another Proof Error occured. 2,200 Proof Sets were struck with the "S" missing from the Dime! The Sept. Wall Street Coin Investor (page 2) lists this set at bid of $605.00 in August and $820 in September, again showing the increasing demand for MINT ERROR PROOF SETS! If the 2,200 1970-S MINT ERROR PROOF SETS are worth $820, then what is this 1969-S MINT ERROR PROOF SET worth of which only 2 are known? **PLATE**

UNIQUE 1802 HALF CENT STRUCK OVER A DOUBLE-STRUCK CENT

1851. Letter of authentication dated 1966 from Walter Breen states:
"This certifies that I have examined the accompanying coin and that I unhesitatingly declare it **AN AUTHENTIC MINT ERROR** of the kind described below, and **THE ONLY SUCH COIN KNOWN TO ME.**"

It is an 1802 regular type (Breen 27: Gilbert 1, the regular Cent Type reverse) half cent, **STRUCK OVER A DOUBLE-STRUCK 1802 large cent,** the RARE Sheldon 225, one of the striking being about 50% off-center with respect to the other, **BOTH Being Off-Center On Flan,** thus (diagram). This Spoiled Cent was rejected on cursory inspection, probably by the pressman at the time, flung into a box kept for the purpose, then in July, 1802 the box of Spoiled Cents (mostly pieces struck far off-center) went to the workmen at the rolling mill in the back building of the Mint with instructions to roll them all down to half-cent thickness and cut half-cent blanks from them. (The same thing had been done in 1796, 1797 and 1800). The rolling process obliterated most details of the cent devices and inscriptions, leaving on only those produced by the edge of the cent reverse meeting the obverse head-on (diagram), i.e. the border nearest STATES. (Only one half cent blank could be cut from a Spoiled roll-down cent; the crescent-shaped remainder went to the melter & refiner for melting for alloy). The parts remaining visible of the undertype leave these conclusions unequivocal and impossible to doubt. Half-cents of 1800 are unknown to exist showing traces of undertype though 5750 are recorded in the Archives as being made; half-cents of 1802 showing undertype are **EXTREMELY RARE** though all 1802's were made on blanks so fabricated. (Dupont sale, 1954 shows one; I have seen less than five altogether)." PLATE

1902/1 902 NICKEL — UNIQUE?

1852. **1902 DOUBLE STRUCK NICKEL with SECOND STRIKE SHIFTED OVER ¼ INCH!** Result: **1902/1 902, 16 STARS. etc.** Very Fine. Presumably **UNIQUE** as we cannot find a record. **PLATE**

DOUBLE MINT ERROR—UNIQUE?
1961-D SILVER CENT — RESTRUCK LATER AS 1962-D DIME

1853. **"DOUBLE MINT ERROR, 1961-D SILVER CENT STRUCK ON DIME PLANCHET, RESTRIKE LATER AS 1962-D DIME"** on holder. Presumably **UNIQUE** as we cannot find a record for another. **Surely such a "FANTASTIC" Error should be worth at least "Four Figures". PLATE**

1961-D COPPER QUARTER — KENNEDY ON 10¢ — KENNEDY 50% OFF

1854. **25¢ 1961-D STRUCK ON 1¢ PLANCHET. EXCESSIVELY RARE! PLATE**

3¢ FEUCHTWANGER 1837 & 1864 — CHOICE

1857. **3¢ 1837 Arms of New York, rev. FEUCHTWANGER'S COMPOSITION, THREE CENTS, Extremely Fine. VERY RARE SO CHOICE!** In demand as the **"FIRST U.S. 3¢ PIECE".** By coincidence (?) this nickel piece can be related to the regular 1865 3¢ nickel. **The popularity (listed page 247 in Guidebook) should send this rarity well into "Four Figures". PLATE**

1858. **3¢ 1864 Eagle, rev. FEUCHTWANGER'S COMPOSITION 3 THREE CENTS, UNCIRCULATED WITH ORIGINAL LUSTER!** Did this "CIVIL WAR" 3¢ Piece influence the adoption of the regular 3¢ nickel (actually copper-nickel) resembling this? **VERY RARE SO CHOICE!** A specimen in the American Auction Assn. sale Nov., 1972 brought $750; surely this popular rarity now worth somewhat more, possibly closer to $1,500.00. **PLATE**
